Abrasives

From discs - to strips - to fine abrasives for polishing. Abrasives for every application. Discover our premium brands such as AP-Merit, 3M, MIRKA and KOVAX.

> Preparation

>> Blanc Car F93 Cleaner

For paint pre-cleaning and as a sanding water additive. - Dissolves grease, oil, soot, silicone, insects - Strong cleaning effect - yet gentle on the material - Highly concentrated can be highly diluted

Item name	Item number	Barcode	Single Price	
Blanc Car F93 Universal Cleaner (1 litre container) degreasing	58526		7,94 EUR/Stk	X
Blanc Car F93 Universal Cleaner (10 kg. container) degreasing	58005		74,46 EUR/Stk	X

>> AP-Merit pre-cleaner (matting paste) green

Prepares painted surfaces quickly and easily for painting. Mattes and dissolves wax and silicone in a single operation. - Creates a completely uniform matt surface (without isolated scratches) - Cleans mechanically and chemically at the same time - Water-based

Item name	Item number	Barcode	Single Price	
AP-Merit matting paste (1 kg. container)	75056		26,93 EUR/kg.	G

>> 3M Matting gel 50018 Scuff-it

Cleaning, degreasing and matting of car body parts in a single operation. Extra-fine microcrystals lead to a significant increase in the sanding capacity of Scotch-Brite Multi-Flex and Scotch Brite matting sponges.

Item name	Item number	Barcode	Single Price	
3M matting gel 50018 (0.7 litre tube)	40010		33,82 EUR/Stk	Y

>> AP-Merit control powder

Solvent-free powder for sanding control of light/dark fillers and primers. Makes imperfections visible - 100 gr. container - incl. hand pad

Item name	Item number	Barcode	Single Price	
AP-Merit control powder black (100 g pack) incl. hand pad	75058		25,96 EUR/Stk	G
AP-Merit control powder white (100 g pack) incl. hand pad	75059		31,04 EUR/Stk	G

>> 3M control powder

For precise control of the sanded surface. Suitable for dark substrates. Makes the smallest imperfections visible, contains no solvents. Ideal for dry and wet sanding systems.

Item name	Item number	Barcode	Single Price	
3M Control black powder 9560	29396		32,47 EUR/Stk	Y
3M Control powder orange 50416	50563		32,45 EUR/Stk	Y
3M Handpad 9561	30844		14,78 EUR/Stk	Y

>> Mirka control powder

Powder to make flaws in the surface visible after grinding. - Control powder incl. hand block - White for dark substrates, e.g: SG 6 or SG 7 - Black for light-coloured surfaces, e.g: SG 1, SG 2, SG 3, SG 4 or SG 5 - 100 gram cartridges

Item name	Item number	Barcode	Single Price	
Mirka control powder black (100 g tin incl. hand block)	52658		29,10 EUR/Stk	B
Mirka control powder white (100 g tin incl. hand block)	52659		29,10 EUR/Stk	B

>> SprayMax control black

For checking all types of sanding work. - Very fine atomisation - Can be sanded wet or dry after just 1 min without having to lower the sandpaper

Item name	Item number	Barcode	Single Price	
SprayMax control black spray (400 ml. container)	56679		18,98 EUR/Stk	S

>> Colad Easy2Check®

surface irregularities on sanded surfaces and/or to create a colourfast sample sheet. The glossy surface created with Colad Easy2Check, which automatically disappears again after approx. 15 minutes, reveals any surface irregularities or colour deviations.

Item name	Item number	Barcode	Single Price	
Colad Easy2Check® (400 ml. spray can)	56586		25,00 EUR/Stk	E

> Water abrasive

>> AP-Merit water abrasive paper 230x280mm red

Waterproof sandpaper for hand sanding for wet sanding of all paint materials. - 100 sheets/pkg.

>> Mirka Iridium strips 70 x 400 mm

With the Mirka Iridium Premium abrasive, you can achieve results faster and in fewer steps. Thanks to the new precision coating, the abrasive does not wear out so easily; it practically repels dust, so the grits stay sharp longer! Dust extraction is efficient and convenient with Mirka's new multihole pattern. - No clogging - Long service life - Dust-repellent - Noticeably sharper grain - with standard Velcro backing - perforated (= 2x 70x198 mm) - 50 strips per pack

>> Mirka Galaxy 70 x 70 mm rolls perforated

Mirka®Galaxy, the new, innovative abrasive combines effectiveness with a long service life without clogging, thanks to a new, self-sharpening ceramic grit and its multifit perforation. Mirka Galaxy is the ideal all-rounder product and can be used on both soft and hard surfaces. The strips will be available on a perforated roll. The 70 mm wide rolls are perforated at 70 mm intervals, so they can be used with sanding blocks of size 70x125 mm; 70x198 mm and 70x400 mm. - 146 tear-offs = 10.22 running metres.

>> KOVAX 730-1502 Tolex / 730-1514 Buflex Dry

Tolex Tolex is an ace at shortening polishing times thanks to its extremely fine sanding marks. The unique combination of micro-abrasive grains and the innovative latex backing ensures sanding marks that are smaller than 1 micron. These fine sanding marks shorten the polishing time. The dry application minimises the risk of sanding through the clear coat. Buflex Dry The finest, dry abrasive with the greatest polishing time savings! The ultra-flexible, innovative latex backing with unique grit structure leaves extremely fine sanding marks. The Velcro specially developed for Buflex increases process reliability and prevents sanding marks caused by Velcro that is too hard. Buflex also preserves the paint structure. - with hook and loop backing - Dry abrasive

Item name	Item number	Barcode	Single Price	
3M stencil tape with 8 strips 06314	33367		31,71 EUR/Stk	Y

>> Chicane Tape 75 mm x 20 running metres.

The new masking method! Chicane differs from other conventional body masking tapes on the market. Chicane has double-sided adhesive surfaces, which makes it possible to separate the rubber seals and seal the gaskets at the same time; in addition, its pre-cut allows the tape to be adapted to the surface to be covered, making the job easier. Not forgetting the PVC reinforcement in the centre, which allows more pressure to be applied to the rubber seals without losing flexibility, while ensuring a clean separation. - Easy to apply and remove - Resistant to temperatures up to 80 °C, leaves no residue - Less time required: the time required for covering is reduced by half - Less material required: separation of the rubbers and sealing of the gaskets with just one product = Outstanding result: paint does not penetrate into the vehicle interior; at the same time, a seamless transition is achieved!

Item name	Item number	Barcode	Single Price	
Chicane Tape 75 mm x 20 running metres.	60560		31,07 EUR/Rll.	X

>> AP-Merit Lift Tape 50 mm x 10 running metres perforated

Perforated special masking tape for lifting or protecting rubber profiles and moulded parts during the painting process. Among other things, this enables painting behind/under the windscreen rubbers. Very easy to lay around curves thanks to the perforation and can be torn off without additional cutting. Heat-resistant up to 100°C. The backing material is a saturated semi-crepe paper with locked plastic strips, the adhesive is rubber-based. - Total thickness is 25.5 my

Item name	Item number	Barcode	Single Price

>> COLAD® 8200 Dust Control

Colad Dust Control is a static, dust-attracting, waterborne liquid. It has been specially developed for application to the floor of the spray booth and preparation rooms. It holds the dust and dirt on the floor. The dust does not fly up and the workshop or booth remains clean. Colad Dust Control is transparent, is supplied ready to use and is very easy to apply with the Colad pump sprayer (art. no. 44495). When the effect of Colad Dust Control wears off, simply spray a new layer over the old layer. - Biodegradable

Item name	Item number	Barcode	Single Price	
Colad 8200 Dust Control 5 litre container	44494		52,24 EUR/Stk	E
Colad pump spray bottle for Dust Control	44495		57,20 EUR/Stk	E

>> COLAD® 8146 ICE cabin protection transparent

A transparent, protective coating that forms a strong layer. Protects your light sources and windows from spray mist and is easy to remove - simply peel it off. - Keeps your light sources and windows clean - Easy to remove by simply peeling off the coating Recommended coating thickness: Apply twice until a minimum coating thickness of 150 µm is achieved. The applied layer has a milky colour. This becomes transparent after drying. Do not apply several coats on top of each other. This will reduce the opacity and light output. Allow to dry at room temperature. - Apply with a spray gun, airless system, brush or paint roller

Item name	Item number	Barcode	Single Price	
Colad ICE (5 litre container) Transparent Removable cabin protection	65438		78,00 EUR/Stk	E

> Cabin protection films

Teroson WX 500 (1 litre container) white-transparent	58325		13,21 EUR/Stk	F

>> Teroson WX 960 wax underbody protection

Wax underbody protection for maintaining the factory-applied PVC underbody protection and for preserving the engine compartment - cannot be painted over - beige

Item name	Item number	Barcode	Single Price	
Teroson WX960 Wax underbody protection (1 litre container) light beige	57362		14,10 EUR/Stk	F

>> Teroson WX 970 wax underbody protection

Wax underbody protection for vehicle underbodies. Solvent-based corrosion protection wax. For repairing and refinishing all protective coatings in the underbody area. - Cannot be painted over - Repair and after-treatment - anthracite

Item name	Item number	Barcode	Single Price	
Teroson WX 970 Wax underbody protection (1 litre container) anthracite	44578		17,40 EUR/Stk	F

>> Teroson WX 950 wax underbody protection

The modern corrosion protection. Solvent-reduced coating material for transparent corrosion protection on the vehicle underbody. For post-treatment of all protective coatings such as those based on PVC, PVC/wax, bitumen/rubber, rubber/resin. - cannot be painted over - beige

Item name	Item number	Barcode	Single Price	
Teroson WX950 Wax underbody protection (1 litre container) beige	45393		25,10 EUR/Stk	F

>> SprayTec underbody protection on wax

Body protection for the underbody treatment of all types of vehicles. Forms a tough, weather-resistant protective layer against rust, road salt, water, ice and snow. - Good adhesion to metal - Water-displacing

Item name	Item number	Barcode	Single Price	
SprayTec UBS wax-based spray (500 ml. container) brown	60921		12,44 EUR/Stk	S
SprayTec UBS wax-based spray (500 ml. container) brown	60922		13,27 EUR/Stk	S

> Cavity protection

>> Teroson WX 350 beige-brown

Cavity sealant on a resin-wax basis. For the protection of all vehicle cavities, e.g. doors, pillars, door sills, etc: Doors, pillars, door sills, etc. Contains a high proportion of rust protection additives. - Good creeping properties - High temperature resistance - Minimal dripping - 60 lt. drum available on request or order

Item name	Item number	Barcode	Single Price	
Teroson WX350 Beige-brown (1.0 litre container)	45496		17,70 EUR/Stk	F
Teroson WX350 Beige-brown (10 litre container)	45497		154,70 EUR/Stk	F

>> Teroson WX 400 transparent

Cavity sealant on a resin-wax basis. For the protection of all vehicle cavities, e.g. doors, pillars, door sills, etc: Doors, pillars, door sills, etc. Contains a high proportion of rust protection additives. - Leaves a moisture-repellent film - Infiltrates and displaces moisture - Can also be applied at low temperatures (from 10 °C) - Minimal dripping - 60 lt. drum available on request or order

Item name	Item number	Barcode	Single Price	
Teroson WX400 transparent (1 litre container)	44579		25,10 EUR/Stk	F
Teroson WX400 transparent (10 litre container)	42510		225,70 EUR/Stk	F

>> Teroson WX 215 cavity spray beige

For the preservation of vehicle cavities. Slightly flexible even in cold conditions, no cracking. - Good creeping properties - High temperature resistance

Item name	Item number	Barcode	Single Price	
Teroson WX215 cavity spray beige (0.5 litre spray)	46098		17,40 EUR/Stk	F

>> SikaGard 6220 cavity wax amber

SikaGard® -6220 is an amber-coloured, durable wax with excellent rust protection properties. The product is especially suitable for effective protection against corrosion in vehicle cavities and impresses with its outstanding application properties andfinal performance. final performance. Thanks to its good creep behaviour, even hard-to-reach areas are perfectly protected. - High creep behaviour SikaGard® -6220 is manufactured in accordance with the ISO 9001 / 14001 quality assurance system and the Responsible Care programme.

Item name	Item number	Barcode	Single Price

> Windscreen adhesives

>> Teroson PU 8519P Primer

All-in-one primer and activator for treating the adhesive substrate before windscreen bonding. Very short flash-off times, even at cooler temperatures. Also for activating existing residual beads or pre-coatings.

Item name	Item number	Barcode	Single Price	
Teroson BOND All in One Primer (25 ml. container) 8519P	52064		13,21 EUR/Stk	F
Teroson BOND All in One Primer (10 ml. container) 8519P	59071		6,51 EUR/Stk	F

>> Teroson PU 8594 HMLC

TEROSON® PU 8594 HMLC is a versatile windscreen adhesive for bonding front, side and rear windows on motor vehicles, commercial vehicles, special vehicles and rail vehicles. - Very good stability - Extremely high holding capacity - High modulus of elasticity and shear modulus - Very low electrical conductivity - Good adhesion to residual material - High UV resistance in combination with primer - Application: cold - Safe drive-away time for driver and passenger airbag: 1 hour

Item name	Item number	Barcode	Single Price	
Teroson PU 8594 HMLC windscreen adhesive (400 ml. foil bag)	58320		11,60 EUR/Stk	F
Teroson PU 8594 HMLC windscreen adhesive (310 ml. cartridge)	61407		13,30 EUR/Stk	F

>> Teroson BOND60 (PU 8597 HMLC)

TEROSON® BOND 60 is a high-performance windscreen adhesive with a safe drive-away time of just 60 minutes. It is applied cold and offers first-class workability properties. The comprehensive pre-treatment and application system makes processing uncomplicated, clean and fast. Safe Drive Away Time (SDAT) in 60 minutes (with airbags) according to FMVSS 212/208 and the new Henkel crash test standard. - Compatible with FAS sensors thanks to low conductivity - OEM approval - Application: cold

Item name	Item number	Barcode	Single Price	
Teroson BOND60 (PU 8597 HMLC) complete cartridge set	43459		50,00 EUR/Set	F
Teroson BOND60 black (0.310 litre cartridge)	43065		23,30 EUR/Stk	F

>> Teroson BOND15 (PU 8599 HMLC)

TEROSON® BOND 15 is a high-performance, hot-applied 1K polyurethane windscreen adhesive with a safe drive-away time of just 15 minutes for safe, fast and reliable automotive glass replacement. Safe drive-away time (SDAT) in 15 minutes (with airbags) in accordance with FMVSS 212/208 - Compatible with FAS sensors thanks to low conductivity - OEM approval - Warm, uncomplicated and fast application - Application: warm

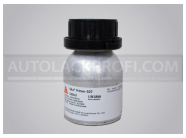
>> Sika® Primer-507 (Purform® technology)



Black primer for the all-black process for car replacement glazing - Improves adhesion for bonding applications on flat glass and ceramic-coated glass, plastics, primers, painted surfaces, cathodic dip painting and metals - Fast drying: only 3 min all year round NOTE: Processing possible without REACH training due to the ultra-low diisocyanate content

Item name	Item number	Barcode	Single Price	
Sika Primer 507 (100 ml. container) black	65001		23,87 EUR/Stk	E
Sika Primer 507 (250 ml. container) black	65002		47,91 EUR/Stk	E

>> Sika® Primer 207 black (standard)

Pigmented, solvent-based primer! Sika® Primer-207 is a black, moisture-curing primer for pre-treatment and surface optimisation when using Sika® polyurethane adhesives and sealants. Sika® Primer-207 combines a short flash-off time with fast adhesion build-up. - Fast drying, only 3 minutes all year round Adhesion to conventional substrates in automotive replacement glazing glass, ceramic screen printing, OEM and replacement paints, repair of spots and scratches on bare metal, PVC and PU-RIM components. Note: Product contains diisocyanates in a concentration >0.1% From 24 August 2023, appropriate training must be provided before industrial or commercial use. You can reach the training platform under the following link: https://www.safeusediisocyanates.eu/de

Item name	Item number	Barcode	Single Price	
Sika Primer 207 (250 ml. container) black	58783		47,42 EUR/Stk	E

>> SikaTack® Pro windscreen adhesive black in a bag

SikaTack® PRO is a cold-applied windscreen adhesive with a safe drive-away time of 30 minutes. It is easy to handle and offers a high level of quality and safety. SikaTack® PRO is suitable for replacement glazing in all vehicles, with and without airbags. The system can be used for mobile and stationary applications all year round. - 30 minutes drive-away time (with and without airbag) - Drive-away time valid for all climatic conditions - Short thread breakage - Sika® All-in-One module - Automotive OEM quality - only in 400 ml. Bag available

Item name	Item number	Barcode	Single Price	
SikaTack PRO (400 ml. bag) black	58759		20,13 EUR/Stk	E

>> SikaTack® DRIVE Purform

Adhesives at OEM level! SikaTack® DRIVE Purform® is a cold processable windscreen adhesive. - 60 minutes safe drive-away time - Easy to squeeze out - Short thread breakage - PU adhesive - Reach training / certificate free! Set contains: 1x 400 ml. Bag of SikaTack Drive Purform 1x 30 ml. Sika Primer-507 2x Sika Cleaner PCA Pad 1x application nozzle 1x adapter for UP 1x repair instructions

> Instant adhesive

>> Loctite® 3090 2K instant adhesive gel

Instant gap-filling adhesive. Universally applicable, high-strength and gap-bridging, gel-like adhesive (up to 5 mm). Suitable for metals, most plastics*, rubber, wood, paper and leather. *Not suitable for PE, PP and PTFE

Item name	Item number	Barcode	Single Price	
Loctite® 3090 2K instant adhesive gel (10 g tube)	53829		33,10 EUR/Stk	H
Loctite® static mixer (10 pcs./pkg.)	54152		16,38 EUR/Pkg	H

>> Loctite® Universal Instant Adhesive 401

Universally applicable instant adhesive (low viscosity). Bonds a wide variety of materials (metals, rubber, wood, cardboard, ceramics and most plastics) to and with each other in seconds.

Item name	Item number	Barcode	Single Price	
Loctite 401 instant adhesive (5 g tube)	43932		8,60 EUR/Stk	H

>> Loctite® flexible instant adhesive 4850

Flexible instant adhesive, medium viscosity, transparent. For use in the manufacture, maintenance and repair of flexible materials and for fixing flexible parts to dimensionally stable substrates, e.g. rubber door seals: Rubber door seals.

Item name	Item number	Barcode	Single Price	
Loctite 4850 instant adhesive (5 g tube)	41961		12,10 EUR/Stk	H

> Glass repair

>> Teroson VR 1500 stone chip repair kit

Complete glass repair kit for professional stone chip repair. Set contains: - Teroson VR1510 (repair resin) - Teroson VR1520 (finish resin) - Teroson VR1540 (polish) - Glass Resin Blades (scraper blades) - Glass Inspect Mirror (inspection mirror) - Glass Drill (burr) - Glass Drill Burr Holder Glass Inject Brighe - Glass Inject Brighe (tool holder) - Glass Hardener Film (curing film) - Glass UV Lamp (UV lamp) - Vacuum Gel - Microfibre cloth - Application video

Item name	Item number	Barcode	Single Price	
Teroson VR 1500 stone chip repair kit	52049		862,79 EUR/Stk	F

>> Teroson VR 1510 repair resin

Teroson repair resin, a UV-curing one-component adhesive, is the filling material that is injected into the damaged area. The resin has a high capillary effect and a refractive index similar to glass. These properties result in the same light transmission as glass. - UV curing 10 minutes

Item name	Item number	Barcode	Single Price	
Teroson VR 1510 repair resin (1.5 ml. tube)	47333		52,30 EUR/Stk	F

>> Teroson VR 1520 Finish resin

The Teroson Finish resin is used to seal the surface at the repair site. - UV curing 10 minutes

Item name	Item number	Barcode	Single Price	
Teroson VR 1520 finish resin (1.5 ml. tube)	47334		43,30 EUR/Stk	F

> Plastic repair

>> AP-Merit 7556 2C PU plastic adhesive fast

2-component plastic adhesive for quick repair and bonding of almost all plastic parts. Also suitable for replicating missing plastic parts. Very good drilling and sanding properties. - Fast version: 60 sec. pot life at 23°C - Can be painted over

Item name	Item number	Barcode	Single Price	
AP-Merit 7556 2C PU plastic adhesive (50 ml. container) fast	75562		9,47 EUR/Stk	G
AP-Merit mixing nozzles (12 pcs./pkg.) for 2K adhesive 50ml.	75570		8,33 EUR/Pkg	G

>> Teroson PU 9225 SF ME

Fast-curing plastic repair adhesive. Suitable for repairing minor damage. For damage such as scratches, cracks or holes in plastic parts, such as bumpers, spoilers, skirts, etc. Accelerated curing by IR emitter at 60°C. - Pot life: approx. 2 min. - Including 1 mixing nozzle

Item name	Item number	Barcode	Single Price	
NOT AVAILABLE !!! Teroson PU 9225 SF ME (50 ml. cartridge)	49348		36,70 EUR/Stk	F

>> Teroson PU 9225 UF ME

Ultra-fast curing plastic repair adhesive. Very suitable for the "SMART Repair" concept. Ideal for bonding or restoring broken or missing brackets. - Pot life: max. 60 seconds - Including 1 mixing nozzle

Item name	Item number	Barcode	Single Price	
NOT AVAILABLE !!! Teroson PU 9225 UF ME (50 ml. cartridge)	56278		36,70 EUR/Stk	F

>> Teroson 150 plastic primer

Excellent adhesion promoter/primer for paintable plastic parts. Can also be used as an adhesion promoter before painting. Easy and precise application from the spray can. - Short flash-off time

Item name	Item number	Barcode	Single Price	
Teroson 155 plastic primer (150 ml. spray)	43835		25,70 EUR/Stk	F

>> 3M plastic repair material set 05900

Two-component epoxy adhesive with which most plastics on the vehicle can be repaired - Mixing ratio 1:1 - Flexible and sandable - Processing time approx. 8 minutes - Can be painted over after 20 minutes

Item name	Item number	Barcode	Single Price	
3M Repair compound for flexible parts - tube set 05900	13257		96,64 EUR/Set	Y

>> Easy Fix plastic repair set

The ideal set for simple plastic repairs. For quickly repairing cracks in plastic bumpers. The special wire clamp is welded into the plastic using heat, giving the object to be worked on its original stability back. Also serves as an aid for plastic bonding or when processing 2-component plastic putties. - Voltage: 220 V. (50/60 Hz); 16 AMP - Weight: 1 kg.

Item name	Item number	Barcode	Single Price	
Easy Fix (plastic repair set)	53805		321,69 EUR/Stk	E

>> Easy Fix processing clamps

Processing clamps for the Easy Fix plastic repair set

Item name	Item number	Barcode	Single Price	
Processing clamp W-shape 0.6 mm for Easy Fix	53806		23,84 EUR/Pkg	E
Processing clamp W-shape 0.8 mm for Easy Fix	53807		23,84 EUR/Pkg	E
Processing clamp U-shape 0.8 mm for Easy Fix	60935		23,84 EUR/Pkg	E
Processing clamp V-shape 0.8 mm for Easy Fix	60936		23,84 EUR/Pkg	E
Processing clamp Conical 0.8 mm for Easy Fix	53808		23,84 EUR/Pkg	E

> Vehicle adhesives

>> Teroson EP 5010 TR alluvial tin replacement

Alluvial tin replacement for restoring metal surfaces on steel and aluminium vehicle bodies. No heat damage to existing electrocoatings, painted surfaces, cavity sealants and seam sealants - Easy to model, shape and sand - Product can be applied cold - Pot life: approx. 80 min.

Item name	Item number	Barcode	Single Price	
Teroson EP 5010 TR alluvial tin replacement (175 ml. cartridge)	55445		46,90 EUR/Stk	F
Teroson 2K EP 5010 TR alluvial tin replacement (200 ml. double cartridge)	66002		48,00 EUR/Stk	F

>> Teroson EP 5020 TR Alluvial tin replacement

Fast alluvial tin replacement for restoring damaged car body surfaces. TEROSON® EP 5020 TR is a unique, cold-applied, 2-component, epoxy-based tin replacement for the restoration of metal surfaces, e.g. on steel or aluminium vehicle bodies. The product is used for the final modelling of dented dents in areas that are difficult to accessible/replicable areas or welded joints. It is shrinkage-free and can be sanded after curing. - Fast-curing 2-component epoxy resin - Very good sandability - Lead-free alternative to classic tinning and can be applied without an open flame - Stable and perfect for reproducing the original structures - No damage to paint surfaces and corrosion protection due to the heat of the open flame - Time-saving, no dismantling of add-on parts or interior fittings required - Accelerated curing possible due to heat - Shrinkage-free

Item name	Item number	Barcode	Single Price	
Teroson EP 5020 TR alluvial tin replacement (50 ml. cartridge)	62106		24,00 EUR/Stk	F
Loctite 2K dosing gun 1:1/2:1 for 50 ml. cartridges	56076		64,67 EUR/Stk	W

>> 3M Epoxy resin tin substitute filler 37455

3M Epoxy Tin Replacement Filler is a fast drying and cold applied tin replacement repair product. The fast-drying epoxy resin tin substitute filler is suitable for repairing surface damage in the form of dents, deformations or parts that have been welded in. Suitable for steel, zinc and aluminium surfaces; offers very good sandability and excellent corrosion protection. - No shrinkage - 100 % solids - Very good sandability - Fast curing - 180 ml. cartridge incl. 1 mixing nozzle

Item name	Item number	Barcode	Single Price	
3M™ Epoxy resin tin replacement filler (180 ml cartridge)	60467		51,44 EUR/Stk	Y

>> 3M 05887 2K repair compound for flexible parts

The easily sandable 3M repair compound for flexible parts consists of a two-component epoxy and is suitable for repairing most flexible plastic parts, e.g. bumper panelling and other plastic body parts. Can be applied within 8 minutes and can be sanded to a sharp edge after 15 minutes using a 180 grit abrasive. - For repairing most plastic parts on modern vehicles - for repairing most flexible plastic parts, e.g. bumper panelling and other plastic body parts - Suitable as a seam sealant on 2K coating - Imitation of the appearance of a smooth OEM sealing tape - excellent sharp-edged sandability - 200 ml. double cartridge - incl. 2 mixing nozzles

Item name	Item number	Barcode	Single Price	
3M 05887 2K repair compound for flexible parts (200 ml. cartridge)	62448		112,84 EUR/Stk	Y

>> Teroson EP 5055 Structural adhesive

Car body repair - structural adhesive, 2K epoxy adhesive, high-strength adhesive, corrosion protection. TEROSON® EP 5055 is a high-strength 2-component epoxy structural adhesive with excellent corrosion protection properties for bonding metals (coated and uncoated), e.g. steel, aluminium. It is particularly suitable for bonding vehicle roofs, side skirts and side panels. TEROSON® VR 10 is recommended for surface preparation. - Excellent corrosion protection - Broad adhesion spectrum on many materials (without primer), e.g. aluminium, steel - Can be spot-welded as long as the material has not yet solidified - Easy to process - High-strength 2-component adhesive - Solvent-free

Item name	Item number	Barcode	Single Price	
Teroson 2C EP adhesive 5055 (200 ml. double cartridge)	65979		63,00 EUR/Stk	F

>> Teroson EP 5065 Structural adhesive

Epoxy resin-based adhesive - high-strength, used for structural bonding in vehicle repair. TEROSON EP 5065 is a solvent-free 2-component adhesive based on epoxy resin. Achieves high strength at high and low temperatures (-40°C to +80°C). After curing, it is hard but not brittle. Used in vehicle repair for structural bonding of metal parts where high demands are placed on crash behaviour (e.g. body steel with or without KTL coating, galvanised steel and aluminium). It offers corrosion protection. - High crash safety at different temperatures - Excellent corrosion protection - Broad adhesion spectrum on many materials (without primer), e.g. on aluminium, steel and SMC components - Can be spot-welded as long as the material has not yet solidified - Curing time: at room temperature approx. 48 hours or 60 min. at 60°C object temperature - Pot life: approx. 80 min.

Item name	Item number	Barcode	Single Price	
Teroson 2C EP adhesive 5065 (200 ml. double cartridge)	66001		63,00 EUR/Stk	F

>> 3M 2K Epoxy Body Adhesive 08115 black

The 3M body adhesive consists of a two-component epoxy for bonding steel, aluminium, SMC and FRP (conventional fibreglass). The product is mainly used as a replacement for side panels, roofs, body sides, van side panels, commercial vehicle side panels and door panels. - Can be spot-welded through riveted joints or used together with these joints - Corrosion protection agent and glass bead technology to achieve the right thickness for the adhesive layer - Curing can be shortened by the effect of heat - 200 ml. Double cartridge - incl. 2 mixing nozzles

Item name	Item number	Barcode	Single Price	
3M 2K Epoxy Body Adhesive 08115 (200 ml. cartridges)	48242		97,02 EUR/Stk	Y

>> 3M Structural Adhesive 07333 Purple-Silver

3M Structural Adhesive (IRSA) is specifically designed for OEM requirements, with increased impact resistance requirements. This two-component epoxy adhesive offers an extended open time - up to one hour - and can be accelerated by applying heat. The adhesive changes colour from silver to purple as it cures. Two-component epoxy adhesive for bonding steel and aluminium in automotive construction, ideal for lightweight structures. - Can be welded or riveted immediately after application - Corrosion-inhibiting formula - 200 ml. Double cartridge incl. 2 mixing nozzles and 1 brush

Item name	Item number	Barcode	Single Price	
3M structural adhesive 07333 (200 ml.) double cartridge) purple/silver	63082		117,55 EUR/Stk	Y

>> SikaPower® 4720 2-component body adhesive

SikaPower®-4720 is a high-strength two-component epoxy adhesive with excellent adhesion properties. It is suitable for bonds that are exposed to high dynamic forces. It has been specially developed for metal or composite components such as: side panels, door panels, roof panels, wheel arches, structural components only in combination with spot welds or rivets. - 195 ml. Cartridge - Perfect in combination with the Gigapress hand press no: 61110 - Curing time: at room temperature approx. 48 hours or 60 min. at 60°C object temperature - Pot life at 23°C approx. 60 minutes - Fixing time at 23°C approx. 4.5 hours

Teroson MS 9120 SUPERFAST white (0.310 litre cartridge)	53685		20,90 EUR/Stk	F

>> Sikaflex® 522

Sikaflex®-522 is a low-emission, one-component STP adhesive and sealant. It has good adhesion to a wide range of substrates and is suitable for elastic sealing and bonding applications indoors and outdoors. This product is suitable for applications in the air conditioning and ventilation sector. - High resistance to ageing and weathering - Good resistance to mould - Particularly low-emission and low-odour - Can be painted over

Item name	Item number	Barcode	Single Price	
Sikaflex 522 (300 ml. cartridge) black	63353		13,20 EUR/Stk	E
Sikaflex 522 (300 ml. cartridge) white	63354		13,20 EUR/Stk	E
Sikaflex 522 (300 ml. cartridge) steel grey	63355		13,20 EUR/Stk	E

>> Sikaflex® 527

Sikaflex® -527 AT is a 1-component PUR hybrid based on Sika's silane-terminated polymer technology (STP). The classic for simple sealing work. Can be painted over immediately wet-on-wet. Sikaflex® -527 AT is suitable for joints in the interior and exterior of vehicle bodies and reacts with air humidity to form a durable elastomer. - Can be painted over with water-based systems ("wet-on-wet" or after skin formation) - Good adhesion without primer on a wide range of substrates - Fast curing (skin formation after approx. 40 minutes)

Item name	Item number	Barcode	Single Price	
Sikaflex 527 AT (300 ml. cartridge) light grey	60464		10,16 EUR/Stk	E
Sikaflex 527 AT (300 ml. cartridge) white	60463		10,56 EUR/Stk	E
Sikaflex 527 AT (300 ml. cartridge) black	60465		10,16 EUR/Stk	E

>> Teroson MS 9320 SF Sprayable seam sealant

A sealant for extrusion, spraying or brushing. Production of various OEM structures, such as sprayable seams, flat and wide jet applications. Excellent UV and weather resistance. Can be spot-welded as long as the material has not yet solidified. - Skin formation time: approx. after 10 minutes / can be painted over up to 3 days after application - 300 ml. cartridges

Item name	Item number	Barcode	Single Price

Teroson MS 9320 SUPERFAST black 6 in 1 (0.300 litre cartridge)	53408		21,70 EUR/Stk	F
Teroson MS 9320 SUPERFAST beige 6 in 1 (0.300 litre cartridge)	58030		21,70 EUR/Stk	F

>> Sikaflex® 529 EVOLUTION

Sprayable 1K STP sealant for the bodywork area. Can be painted over with all common paint systems - even wet on wet. - Minimal overspray - Minimal shrinkage (3%) - Skin formation time 15 minutes - High internal strength: Shore hardness A (40) - Free from silicone, PVC, solvents and isocyanates for health-conscious working - Good adhesion to a wide range of substrates without primer for quick and easy processes - Low odour, pleasant to work with In conjunction with the Sika® Spraygun and the associated attachments and nozzles, all common original structures can be restored without any problems - sealing seams just like ex works!

Item name	Item number	Barcode	Single Price	
Sikaflex 529 EVOLUTION (300 ml. cartridge) ochre	62876		15,91 EUR/Stk	E
Sikaflex 529 EVOLUTION (290 ml. cartridge) black	65058		15,91 EUR/Stk	E

>> Sikaflex® 529 EVOLUTION Easy Box

Starter set with all the important products for easy creation of all standard original structures - sealing seams as ex works! Set contains: 3 × Sikaflex®-529 Evolution ochre 3 × standard nozzle 3 × wide nozzle 3x OE nozzle 3 × flanged seam nozzle 1 × plastic brush and instructions

Item name	Item number	Barcode	Single Price	
Sikaflex 529 EVOLUTION Easy Box (17 pieces) ochre	65059		67,20 EUR/Set	E

> Solvent-based sealants

>> 3M brush-on sealant 08537

For sealing boot floors, floor panels, tank nozzles, door frames, wheel arches, splashbacks, etc. Good adhesion to metal, primed and painted parts. - Can be painted over after 30 min. - Low in solvents

Item name	Item number	Barcode	Single Price	
3M Spreadable sealant grey 08537 (900 ml. container)	13349		41,79 EUR/Stk	Y

>> Teroson RB 1060 light

Alternative to classic rain retention cement. RB 1060 is a paintable, elastic special sealant for all joints and seams on the bodywork. The material provides a heat-, cold- and spray water-resistant seal with good adhesion. Movements and vibrations of the bodywork that are transferred to the seams are absorbed.

Item name	Item number	Barcode	Single Price	
Teroson RB 1060 light (310 ml. cartridge)	59586		18,79 EUR/Stk	F

> Spray adhesive

>> Teroson VR 5000 contact adhesive spray

As a contact or pressure-sensitive adhesive - depending on application. For bonding fabric, foam rubber, empty, cardboard and artificial leather/fabric coverings, insulating mats and rubber. - High instant adhesion (allow 10 minutes for flash-off time) - Particularly suitable for bonding porous materials

Item name	Item number	Barcode	Single Price	
Teroson VR 5000 contact adhesive spray (0.400 lt.)	48923		26,10 EUR/Stk	F

>> 3M Spray Adhesive Spray 8080 transparent

Spray adhesive for large-area bonding of foam rubber, carpets, vehicle headliners. Adheres to metal, wood, plastic and other surfaces.

Item name	Item number	Barcode	Single Price	
3M spray adhesive transparent 08080 (0.5 litre spray)	13318		30,60 EUR/Stk	Y

>> SprayTEC adhesive spray

A highly effective all-purpose adhesive that can be used as an assembly, bonding and contact adhesive for a wide range of applications, such as foam, plastic, rubber, leather, textiles, metals, painted sheet metal, wood, glass wool, felt, cardboard, polyester materials, ceramics and much more. For permanent, highly adhesive bonding of all kinds. SprayTec adhesive spray bonds quickly and reliably and is easy and clean to use.

Item name	Item number	Barcode	Single Price	
SprayTEC adhesive spray (400 ml. container)	56808		24,04 EUR/Stk	S

> Other sealants

>> AP-Merit seam sealing tape transparent

Reinforced acrylic tape with an acrylic adhesive of high tack and resistance. Excellent resistance to solvents, chemicals, UV rays and heat, allowing the seam sealing tape to adhere securely to a wide range of substrates. Ideal for duplicating sealing seams on car doors and flanges. - Transparent - Can be painted over immediately

Item name	Item number	Barcode	Single Price	
AP-Merit seam sealing tape 9 mm x 10 running metres.	75178		15,22 EUR/Rll.	G
AP-Merit seam sealing tape 12 mm x 10 running metres.	75179		18,00 EUR/Rll.	G

>> Finixa seam sealing tape white semi-circular

The OEM profile sealant for doors, bonnets and boot lids. Fast, heat-resistant and immediately recoatable. 6 mm: for Japanese, Korean and French cars 8 mm: most German cars (Mercedes, Volkswagen, Audi) 10 mm: BMW, vans and large SUVs. - self-adhesive - Apply adhesive primer for additional adhesion to various substrates - Hand roller for applying seam sealer for constant and even pressure

Item name	Item number	Barcode	Single Price	
Finixa seam sealing tape 6 mm x 9 running metres.	66313		51,51 EUR/Rll.	E
Finixa seam sealing tape 8 mm x 9 running metres.	66314		51,51 EUR/Rll.	E
Finixa seam sealing tape 10 mm x 9 running metres.	66315		51,51 EUR/Rll.	E

Finixa adhesive primer (400 ml. spray can) transparent	66318		23,75 EUR/Stk	E

>> 3M Seam Sealing Tape 08475 light green

With 3M seam sealing tape, you can achieve the same appearance and function as with factory sealants. Our sealing tape provides a quick and easy alternative to liquid sealants without the need for application, moulding or drying. For solvent-based paints. - 0.9 mm x 9.5 mm x 9.1 running metres. - Fast, effective reproduction of the appearance and function of factory sealants - Can be painted over immediately, thus saving time and money compared to liquid sealants - Tape on rubber carrier, thus high durability even under harsh conditions, so that fewer touch-ups are required - Use polyolefin adhesion promoter before application

Item name	Item number	Barcode	Single Price	
3M Seam Sealing Tape 08475 0.9 mm x 9.5 mm x 9.1 running metres.	65546		23,85 EUR/Rll.	Y

>> Teroson RB VII round profile sealing tape black

Universally applicable round profile sealing cord. The sealing cord can be used as a spacer and for sealing between metal, wood or plastic parts, e.g. for sealing overlaps and rear light housings.

Item name	Item number	Barcode	Single Price	
Teroson RB VII round profile sealing tape black	39965		39,70 EUR/Stk	F

>> 3M 8800 QL seam sealing "no clean up"

2-component sealant in a sachet. "No clean up": The plastic nozzle is already integrated in each sachet, the gun stays clean! The gun handle is fixed to the nozzle with a bayonet catch. Simple mixing process, pre-dosed components. - Can be painted over - High degree of final hardness - Can also be used over large areas as high-quality stone chip protection - grey

Item name	Item number	Barcode	Single Price	
3M 8800 QL seam sealer "no clean up" (250 ml. sachet) grey	40246		35,56 EUR/Stk	Y
3M compressed air gun 08801 for QL sachets	40247		96,05 EUR/Stk	Y

> Noise protection

>> Teroson BT SP 100 50 x 25 cm

Self-adhesive bitumen/plastic sheets to prevent vibrations and reduce structure-borne noise on car doors and side panels. - Preheating facilitates processing - Adhesion: pressure-sensitive adhesive / self-adhesive - Tip: fix with Terokal 2444 adhesive - Colour: visible side grey silver / underside black

Item name	Item number	Barcode	Single Price	
Teroson BT SP 100 aluminium coloured 50 x 25 cm	44602		8,97 EUR/Stk	F

>> Teroson PU SP 200 100 x 50 cm

High-quality, self-adhesive sound-absorbing mats with PU protective skin for the engine and boot lid. - Resistant to oil, petrol, heat and water - Flame-retardant in accordance with DIN 75200, MVSS 302 - Adhesion: pressure-sensitive adhesive / self-adhesive - Tip: fix with Terokal 2444 adhesive - Colour: anthracite

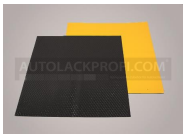
Item name	Item number	Barcode	Single Price	
Teroson PU SP 200 grey 100 x 50 cm	44603		40,21 EUR/Stk	F

>> Teroson BT SP 300 100 x 50

Self-adhesive, heat-flexible bitumen/plastic-based anti-drumming plates for sound insulation and sound deadening on car floor panels. - Can be moulded with a hot air gun, flows into beads and corners - Adhesion: Adhesive / self-adhesive - Tip: fix with Terokal 2444 adhesive - Colour: black

Item name	Item number	Barcode	Single Price	
Teroson BT SP 300 black 50 x 50 cm	44604		14,86 EUR/Stk	F
Teroson BT SP 300 black 100 x 50 cm	44605		26,00 EUR/Stk	F

>> AP-Merit anti-drumming plates black



Self-adhesive bitumen damping film based on high-quality polymer-modified bitumen and special fillers. Thanks to its good flexibility at room temperature, the film also adapts easily to curves. The film is self-adhesive with a solvent-free pressure-sensitive adhesive. - 10 pieces per pack

Item name	Item number	Barcode	Single Price	
AP-Merit anti-drumming panels 50 x 50 cm black self-adhesive	75650		66,89 EUR/Pkg	G

>> 3M flexible foam 08463

Two-component urethane that foams in place; replacement for flexible foams in OEM applications such as boots, door panels, door panels or roof racks - High-performance closed-cell urethane flexible foam - for replacing flexible foams in OEM support applications such as impact beams, roof bows or bonnet panelling - Processing time: 40 seconds - Drying/painting time: 1 hour - 200 ml. Double cartridge

Item name	Item number	Barcode	Single Price	
3M flexible foam 08463 (200 ml. double cartridge)	63496		95,58 EUR/Stk	Y

› Cleaning and pre-treatment of surfaces

>> Sika® Activator 100

Sika® Activator-100 (adhesive cleaner) is a cleaning solution for the pre-treatment of adhesive surfaces, especially for direct glazing with Sika® polyurethane adhesives. Is used for cleaning and improving adhesion for bonding applications on glass, ceramic-coated glass, cut polyurethane adhesive beads and PUR pre-coated panes and lacquers. - recommended as a pre-treatment for SikaPower 4720 - Colour: yellow/transparent - Flash-off time from 15°C is 10 minutes

Item name	Item number	Barcode	Single Price	
Sika Activator 100 (30 ml. container) orange cap	62095		15,82 EUR/Stk	E
Sika Activator 100 (250 ml. container)	58782		33,62 EUR/Stk	E
Sika Activator 100 (1 litre container)	59232		38,71 EUR/Stk	E

>> Sika® Activator 205

Sika® Activator-205 (adhesive cleaner) is an alcoholic solution with an adhesive substance for activating adhesive surfaces before bonding and sealing with Sika® products. - recommended for bonding and sealing work - Colour: yellow/transparent - Flash-off time from 15°C is 10 minutes

Item name	Item number	Barcode	Single Price	
Sika Activator 205 (250 ml. container)	58781		25,42 EUR/Stk	E

>> Sika® Activator 307

Adhesive cleaner for black primerless bonding in car replacement glazing - Improves adhesion - Quick, clean and easy to use - One wipe application - Flash-off time of 3 minutes - Can be used all year round, even at low temperatures

Item name	Item number	Barcode	Single Price	
Sika Activator 307 (250 ml. container) for Purform	65003		34,13 EUR/Stk	E

>> Sika® Remover 208

Solvent-based, versatile cleaning agent for cleaning painted and heavily soiled surfaces and for removing uncured adhesive. - Does not attack paintwork

Item name	Item number	Barcode	Single Price	
Sika Remover 208 (1 litre container)	58784		31,53 EUR/Stk	E

>> Sika® Cleaner-G+P (formerly CleanGlass)

Sika® Cleaner G+P is an alcohol-based solution for cleaning glass panes and non-porous substrates. Sika® Cleaner G+P leaves no residue on the substrate and is therefore easy toapply. and there is no need to polish the panes afterwards. - light blue/clear

Item name	Item number	Barcode	Single Price	
Sika Cleaner-G+P (500 ml. spray bottle)	58820		3,90 EUR/Stk	E
Sika Cleaner-G+P (25 litre container)	62094		74,24 EUR/Geb.	E

>> Teroson VR 105 foam cleaner

Versatile intensive cleaner with stable active foam. Cleans all glass surfaces such as car windscreens, mirrors, headlights, etc. without leaving streaks - Can also be used to clean upholstery.

Item name	Item number	Barcode	Single Price	
Teroson VR 105 foam cleaner (0.5 litre spray)	44606		7,79 EUR/Stk	F

>> Teroson VR 10 Surface preparation

Universal product for the preparation of bonding surfaces. Apply with a lint-free cloth. - Removes all dirt from the vehicle frame and windscreen - Very short flash-off time - Improves adhesion - Does not attack paintwork

Item name	Item number	Barcode	Single Price	
Teroson VR 10 FL cleaner (1 litre container)	61691		21,90 EUR/Stk	F

>> 3M Adhesive Cleaner 08984

For removing adhesive residues, waxes, greases and oils. - Does not attack hardened paint

Item name	Item number	Barcode	Single Price	
3M Adhesive Cleaner 08984 (1 litre container)	13234		34,64 EUR/lt.	Y

>> Isopropanol cleaning cloth 99.7 %

For degreasing, cleaning and preparing before bonding. Ideal for use on metals, many plastics and coloured surfaces. - Dimensions: 140 x 190 mm, individually packed

Item name	Item number	Barcode	Single Price	
Isopropanol cleaning cloth 99.7 % (individually packaged)	61168		1,13 EUR/Stk	G

>> Sika® Smoothing agent N

Water-based, solvent-free auxiliary agent for smoothing Sikaflex® joints. - transparent

Item name	Item number	Barcode	Single Price	
Sika smoothing agent N (1 litre container)	58785		8,34 EUR/Stk	E

> Processing equipment

>> Teroson UBS multi-spray gun

For 1 litre cans. With pressure regulator for adjusting the structure. This spray gun is equipped with a pressure regulator for structure adjustment. After use, simply wipe the spray head with thinner. No daily cleaning necessary. Can also be used for the application of cavity protection. ATTENTION!!! Probes no longer included in the scope of delivery!!!

Item name	Item number	Barcode	Single Price	
Teroson UBS multi-spray gun (structure) 1589356 Test	55308		313,00 EUR/Stk	F
Seal for Teroson UBS pressure cup gun	62343		15,00 EUR/Stk	X

>> Underbody protection gun "NO CLEAN"

New revolutionary underbody gun with replacement nozzle and hose, for applying underbody protection and other protective products. Cleaning immediately after application is no longer necessary: This new gun has a universal disposable nozzle that can be thrown away after use. - No cleaning required!

Item name	Item number	Barcode	Single Price	
Underbody protection gun "NO CLEAN"	58207		25,53 EUR/Stk	G
NO CLEAN" replacement set	58208		30,47 EUR/Pkg	G

>> AP-Merit UBS/HV pistol standard

Standard underbody and cavity sealer gun for 1-litre containers. - including hose

Item name	Item number	Barcode	Single Price	
AP-Merit UBS/HV gun standard incl. hose	75640		47,13 EUR/Stk	G

>> Pressure cup gun for 1 litre stone and underbody protection cans

Pressure cup gun for the versatile use of commercially available underbody and cavity protection agents. Also enables the application of very viscous material. Gun fits all 1 litre cans with plastic or sheet metal thread, brass spray nozzle. - Delivery incl. cavity spray hose set (3-piece) - Working pressure: 8.00 bar - Weight: 1.6 kg.

Item name	Item number	Barcode	Single Price	
Pressure cup gun for 1 litre stone and underbody protection cans	61374		295,60 EUR/Stk	H

>> Cavity pressure cup gun

Pressure cup gun for processing cavity sprays. - incl. spray nozzle with quick-release coupling, - Supplied WITHOUT cavity spray hose set (probes) - Filling quantity: up to 1 litre - Working pressure: 8.00 bar - Weight: 0.87 kg.

Item name	Item number	Barcode	Single Price	
VAUPEL cavity pressure cup gun with 1 litre capacity NEW	61376		358,73 EUR/Stk	E
Cavity spray set (3-piece)	61535		61,28 EUR/Set	H

>> Teroson Cavity CC Cup Air Gun

For processing products for cavity sealing. Working pressure 3-4 bar max. 6 bar. Included in the scope of delivery: 1 pc. Aluminium cup for 1 lt. HV 1 pc. Nylon probe 6 mm 1 pc. Hook probe 50 cm

Item name	Item number	Barcode	Single Price	
Teroson Cavity CC Cup Air Gun	44607		326,40 EUR/Stk	F

>> SATA® HRS™ cavity gun

The SATA HRS pressure cup gun with three quick-change probes allows cavity preservation in a wide range of applications. The exact jet guidance ensures precise work and the all-metal design ensures a long service life. Probes can be changed quickly and easily thanks to the tried-and-tested material coupling system. - Fine atomisation even with highly viscous materials thanks to pressurisation with up to 10 bar - Long service life thanks to all-metal design - Precise jet guidance - Versatile in use - including flow regulation and quick-release coupling for probe attachment - with 1 litre pressure cup (max. 10 bar)

Item name	Item number	Barcode	Single Price	
SATA® HRS™ cavity preservation gun (without probes)	52969		271,00 EUR/Stk	X

>> SATA® HRS™ accessories and spare parts

SATA accessories and spare parts for the SATA HRS cavity gun.

Item name	Item number	Barcode	Single Price	
SATA nylon probe VH 1300 mm, 8 mm dm, with radial nozzle 360 degrees	45940		47,60 EUR/Stk	X
Sata nylon probe 1500 mm long, 6 mm dm, with radial nozzle 360 degrees	45939		47,60 EUR/Stk	X

SATA Venturi hook probe dm 5 mm complete with flexible guide tube	62708		51,90 EUR/Stk	X
SATA material coupling with free passage for probes	46203		30,30 EUR/Stk	X

>> Manual pressure gun for 10 ml. 2-component adhesive

Enables precise and even dosing, plastic housing. - Specially developed for 10 ml. 2K cartridges, e.g.: Loctite 3090 etc. - Force ratio: 7:1 - Mixing ratios: 10:1

Item name	Item number	Barcode	Single Price	
Manual pressure gun for 10 ml. 2-component adhesive	61111		61,22 EUR/Stk	F

>> AP-Merit application gun for 50 ml. adhesive

For processing 50 ml double adhesive cartridges. - Mixing ratio is 1:1

Item name	Item number	Barcode	Single Price	
AP-Merit METALL processing gun for 50 ml. 2-component adhesive	75572		39,64 EUR/Stk	G
AP-Merit processing gun PLASTIC	75573		45,96 EUR/Stk	G

>> Teroson Teromix application gun

For processing Teromix 6700 and Terokal 9225 double cartridge.

Item name	Item number	Barcode	Single Price	
Teromix processing gun	24392		57,60 EUR/Stk	F

>> Cartridge press WEXFORD 2

Glass fibre frame, therefore extremely resilient. 8-edge push rod, with automatic pressure relief: prevents the sealant from dripping. For all 200/310 ml. cartridges

Item name	Item number	Barcode	Single Price	
Cartridge press Wexford2 320 ml.	46897		10,93 EUR/Stk	C

>> Teroson Staku manual pressure gun

for all 200/310 ml. cartridges

Item name	Item number	Barcode	Single Price	
Teroson Staku manual pressure gun	44619		106,10 EUR/Stk	F

>> Cox Powerflow Combi manual pressure gun

Manual gun for processing 300 / 400 / 600 ml. Packaging - Rotatable for adjusting the nozzle to the object - Optimum emptying of the containers

Item name	Item number	Barcode	Single Price	
COX Powerflow Combi Sachet for 310 ml. cartridges	62492		62,20 EUR/Stk	E
COX Powerflow Combi Sachet for cartridges/bags up to 600 ml.	58796		69,30 EUR/Stk	E

>> Gigapress manual pressure gun 35:1

Highest power transmission for 2-component cartridges, e.g. SikaPower 4720, Teroson EP 5065 etc. - Aluminium tube, with steel caps - Force ratio: 35:1

Item name	Item number	Barcode	Single Price	
Gigapress manual pressure gun 35:1 for 2K cartridges	61110		40,32 EUR/Stk	F

>> AP-Merit cartridge press premium

Manual press gun for 290-310 ml cartridges and 400 ml. foil bags.

Item name	Item number	Barcode	Single Price	
AP-Merit cartridge press premium for 290-310 ml. cartridges	75465		44,11 EUR/Stk	G

>> Sika hand application gun 220 ml.

High-performance two-component applicator gun for dispensing 200 ml double cartridges at a ratio of 1:1 or 2:1.

Item name	Item number	Barcode	Single Price	
Sika hand application gun 220 ml. (1:1/2:1)	63518		93,13 EUR/Stk	E

>> Sika® PowerCure Dispenser (battery press)

Battery-powered processing device for the application of PowerCure adhesives - as precise as pump and dosing systems used in modern manufacturing processes in the automotive industry - Infinitely variable mechanical individual drive guarantees dynamic mixing and dosing of the adhesive - Precise control of the output quantity - Weight: 4.3 kg - Battery: Li-Ion 2.0 Ah - Scope of delivery: 1x press, 1x rechargeable battery, 1x charger with EU cable, operating instructions, in box

Item name	Item number	Barcode	Single Price	
Sika PowerCure Dispenser (rechargeable cartridge press) 600 ml.	62085		1.776,53 EUR/Stk	E

>> Teroson Power-Line 2 compressed air gun

High-pressure gun for ejecting low to high-viscosity materials. - For spraying flat and wide jet sealing seams - Patented system prevents cartridges from bursting - for all 310 ml. cartridges - Optional: conversion kit available for 400 ml foil bags - Ergonomically shaped handle - Working pressure: up to 24 bar (with max. 8 bar inlet pressure)

Item name	Item number	Barcode	Single Price	
Teroson Power-Line 2 compressed air gun	51140		641,51 EUR/Stk	F

>> Teroson telescopic gun Multi-Press

For dosing low-viscosity adhesives and sealants in bead form and as a spray pattern. For extruding and spraying Terostat 9320, for example. incl. 2 union nuts, plug-in spigot and device for piercing aluminium cartridges. - for all 150 or 310 ml. Nozzle cartridges

Item name	Item number	Barcode	Single Price	
Teroson telescopic gun Multi Press ST/1	43838		499,00 EUR/Stk	F

>> PowerLine telescopic gun (pneumatic)

Pneumatic press for processing all types of sealants and adhesives from commercially available original cartridges. With integrated control valve for processing general sealing compounds. - Weight: 1.5 kg. - Working pressure: 9 bar - Compressive force: 1.20 kN

Item name	Item number	Barcode	Single Price	
PowerLine telescopic gun (pneumatic)	61080		336,00 EUR/Stk	F

>> Cox Airflow 1 Gun compressed air gun

Pneumatic gun for 300 / 400 / 600 ml packaging. Infinitely adjustable compressed air gun including special piston for optimum residue emptying. For bead application from bags. Working pressure: max. 6.8 bar with operating regulator Pressure force: 1.45 kN Cox Airflow Gun 1 for cartridges 300 ml. expandable with regulator 8.6 bar. (Recommended)

Item name	Item number	Barcode	Single Price	
COX Airflow Gun 1 for cartridge 300 ml.	58792		195,28 EUR/Stk	E

AP-Merit reinforcing mesh 12.5 cm x 1.5 running metres.	75576		9,16 EUR/Stk	G

Levelling, priming, painting, special

> Filling

>> AP-Merit Multispachtel PLUS 7530-4 beige

2K polyester multi-purpose filler for all important applications. Multifunctional, very easy and safe application, very good adhesion and sandability. Adhesion to steel, aluminium and galvanised steel - Very easy to apply - Colour: beige - incl. hardener tube

Item name	Item number	Barcode	Single Price	
AP-Merit Multispachtel PLUS 7530-4 (0.5 kg. container) beige	75306		9,73 EUR/Stk	G
AP-Merit Multispachtel PLUS 7530-4 (2 kg. container) beige	75304		19,89 EUR/Stk	G

>> AP-Merit 7531 Glass filler green

2K polyester glass fibre filler with very good filling power. For closing small holes, cracks, etc. Improved sandability and surface quality. Adhesion to steel and aluminium - Colour: green - incl. hardener tube

Item name	Item number	Barcode	Single Price	
AP-Merit glass filler 7531 (0.5 kg. container) green	75311		7,53 EUR/Stk	G
AP-Merit glass filler 7531 (1.8 kg. container) green	75313		18,44 EUR/Stk	G

>> Plastfill plastic contour filler black

Plastfill is a special lightweight filler for plastic surfaces that offers high flexibility, a smooth surface and quick and easy sanding. It is also suitable for use on glass fibre. The filler has an integrated sanding control: when sanding, it fades from dark grey to light grey, which helps the sanding process. This ensures a seamless and effective application on plastic surfaces. - incl. hardener tube

Item name	Item number	Barcode	Single Price	
Plastfill plastic contour filler (1 kg. container) black	66178		21,08 EUR/Stk	E

>> AP-Merit 7533 Multi-Soft filler grey

2K polyester multifunctional filler (lightweight filler) for all applications, filling and finishing filler. Despite the very low density (up to -50%), non-porous surfaces can be achieved. Very easy to sand, even several days after application. Adhesion to steel, aluminium and galvanised steel. - Colour: grey - incl. hardener tube

Item name	Item number	Barcode	Single Price	
AP-Merit Multi-Soft Filler 7533 (1.6 kg. container) grey	75334		16,62 EUR/Stk	G

>> AP-Merit 2K polyester spray filler 7534 grey

2K polyester spray filler. Adhesion to sheet steel, sanded old paintwork, polyester filler and GRP. For levelling uneven surfaces, fills scratches and the smallest holes. - Excellent flow properties - Quick drying - Very easy to sand - Mixing ratio by volume 100 : 5 - Colour shade: grey - including hardener (supplied automatically)

Item name	Item number	Barcode	Single Price	
AP-Merit 2K polyester spray filler 7534 (1 lt. container) grey	75340		20,00 EUR/Stk	G
AP-Merit 2K hardener for polyester spray filler 7534 (50 ml. container)	75341		3,36 EUR/Stk	G

>> AP-Merit 7536 Aluminium filler silver

2K polyester aluminium fine filler. Suitable for adhesion to iron, steel, GRP and wood. Very good filling power, easy to apply and easy to sand. - Colour: silver - incl. hardener tube

Item name	Item number	Barcode	Single Price	
AP-Merit aluminium filler 7536 (1.8 kg. container) silver	75361		19,33 EUR/Stk	G

>> AP-Merit tin replacement filler silver

AP-Merit Zinnersatzspachtel is a high-quality 2-component polyester resin-based filler with lamellar pigmentation, with adhesion to iron, steel, aluminium, zinc, GRP and wood. AP-Merit Zinnersatzspachtel is easy to fill, can be sanded well and with little dust after a short drying time and has high adhesive and flexural strength. It can be applied to vertical surfaces without any problems. Good resistance to petrol, diesel and diluted acids. Can also be used as a substitute for alluvial tin. - Colour: silver - incl. hardener tube

Item name	Item number	Barcode	Single Price	
AP-Merit tin replacement filler (2 kg. container) silver	75365		31,56 EUR/Stk	G

>> Debrasel special filler

Highly elastic filler of extreme hardness and very light weight with which very high layer thicknesses of approx. 3-4 cm can be applied. Alsi 12 is a mixture of different metal alloys, can be regarded as a tin substitute and has tin properties when used cold. Can be used on metal (incl. aluminium) as well as wood. Resistant to petrol, diesel oil, battery acid, etc. Withstands temperatures up to 500°C. - Plastering of welding seams or car body edges. - Filling of large recesses. - Highly elastic, can be bulged. Dry sanding with fibre disc or coarse paper. - Cracks in engine blocks, cylinder heads or fuel tanks. - Non-conductive, therefore suitable for electrical insulation - Can be machined with a drill or thread grinder - Repair of exhaust systems - Repair of batteries - Colour: silver - incl. hardener tube

Item name	Item number	Barcode	Single Price	
Debrasel Alsi 12 levelling compound (1.3 kg. tin)	49844		53,25 EUR/Stk	E

>> 3M DMS - Dynamic Mixing System

Process safety, fewer sources of error, reduced health risks, time savings, material savings, reduced cleaning effort. The filler is used to repair dents in steel or aluminium and as a coating over repaired cracks in SMC or glass bermaterials. - Easy to sand - Closed double cartridge for hardener and polyester filler - 276 ml. cartridge

Item name	Item number	Barcode	Single Price	
3M DMS Premium Filler 51004 (276 ml. cartridge)	57797		36,07 EUR/Stk	Y

> Varnishing

>> AP-Merit chrome effect

AP-Merit Chrome Effect creates a metallic look, like polished aluminium. Suitable for painting wheel rims, add-on parts, decorative mouldings or for partial and full paintwork. The substrate must be primed black. For the best effect, a 2K uni top coat is recommended.

Item name	Item number	Barcode	Single Price	
AP-Merit chrome effect (1 litre container)	75245		111,93 EUR/Stk	G

>> Flash Colour

Flash Color are fluorescent colours that light up intensively when exposed to ultraviolet light and evaluate the ultraviolet rays of daylight. Flash Color incl. hardener is a two-component acrylic-based paint system, free from lead and chrome pigments and non-toxic. Priming white is strongly recommended, as a white substrate has maximum reflection and thus ensures maximum fluorescence intensity of the colour. NOTE: It is recommended to use the original Flash Colour spray additive, otherwise complications may occur. 1 kg. Container, hardener is automatically supplied! (=850 gr. base coat + 150 gr. hardener)

Item name	Item number	Barcode	Single Price	
Flash Colour Yellow (1 kg. container)	48851		105,24 EUR/kg.	E

> UV products

>> Colad UV levelling compound

The levelling compound is a 1-component product, which makes it easy to apply. Can be applied to various surfaces such as metal and plastic. The filler can be applied with a metal or rubber spatula, whereby the practical tube simplifies dosing. Easy to dry with, for example, the Colad UV curing lamp. The curing time depends on the distance of the curing lamp to the surface and the layer thickness. Can be processed immediately. - Colour: grey Coarse levelling compound: Colad Fast Curing System UV Filler Coarse is a universal UV filler for smart and spot repairs, for filling small cracks, dents and stone chips. Fine filler: Colad Fast Curing System UV Filler Fine is a universal UV filler for levelling small imperfections. Perfect for smart and spot repairs, for filling even the smallest micro-holes.

Item name	Item number	Barcode	Single Price	
Colad UV filler coarse (190 g tube) grey	62923		17,55 EUR/Stk	E
Colad UV filler fine (220 g tube) grey	62924		17,55 EUR/Stk	E

>> Finixa 1K UV primer/filler grey

One-component primer/filler; no mixing with other products required. - Drying by means of UV lamp - 1 to 2 minutes drying time (depending on layer thickness) - 1-step system - Higher productivity: increased time efficiency, energy savings - For use on sanded and clean steel, aluminium, galvanised steel, dried and sanded OEM coatings, polyester putties, hard and semi-hard plastics, ... - Ideal for spot and smart repairs

Item name	Item number	Barcode	Single Price	
Finixa 1K UV primer/filler (400 ml. spray can) grey	66320		64,65 EUR/Stk	E

>> SprayMax UV filler and UV clearcoat

SprayMax UV filler: Highly efficient and high-yield UV filler particularly suitable for refinishing in industry and trade. We recommend the use of UV-A lamps 400 Watt with light source H400 / PE - Cures at a UV-A light wavelength of 320 - 400 nm or UV-A LED light systems 120 watts - Cures at a UV-A light wavelength of 365 nm - incl. additional spray head - High filling capacity - Particularly suitable for refinishing - Suitable as an insulating filler - High productivity SprayMax UV clearcoat: UV clearcoat for fast coating and sealing of repair and new paintwork. We recommend the use of UV-A lamps 400 Watt with light source H400 / PE - Cures at a UV-A light wavelength of 320 - 400 nm or UV-A LED light systems 120 watts - Cures at a UV-A light wavelength of 395 nm - Easy processing - Fast drying - No colour deviation - Good weather resistance - Very good levelling - Very good polishability

> SprayMax spray cans

>> SprayMax silicone remover

Rich in active ingredients, mild cleaning agent for the thorough removal of silicone, grease, oil, wax, dirt, tar and soot. The high-yield silicone remover has an excellent cleaning and degreasing effect and increases adhesion. The product is used when painting solvent-based paints.

Item name	Item number	Barcode	Single Price	
SprayMax silicone remover spray (400 ml. container) transparent	56647		12,75 EUR/Stk	S

>> SprayMax Aqua Silicone Remover

Water-based, solvent-reduced and active ingredient-rich cleaning agent for use immediately before painting with water-based paints. This powerful product increases adhesion and reduces the electrostatic effect. High cleaning and degreasing power.

Item name	Item number	Barcode	Single Price	
SprayMax Aqua Silicone Remover Spray (400 ml. container)	56648		15,00 EUR/Stk	S

>> SprayMax 1K surface control spray transparent

1K Surface Control Spray is used to achieve a temporary gloss on spray sample panels for colour testing. It can also be used to detect surface irregularities on vehicle surfaces that are to be sanded or ground.

Item name	Item number	Barcode	Single Price	
SprayMax 1K surface control spray (400 ml. container) transparent	65266		12,75 EUR/Stk	S

>> SprayMax plastic adhesion promoter

Ideal adhesion promoter for subsequent coatings on most plastics. Primer and adhesion promoter for all common exterior car / lorry plastic parts. Substrates: PP, PP/EPDM, ABS, SAN, PC, PA, PUR-RIM, RTPU, PPO, PBT, PUR flexible foam, UP-GF plastics

Item name	Item number	Barcode	Single Price	
SprayMax plastic adhesion promoter (400 ml. container) silver	56649		20,60 EUR/Stk	S

>> SprayMax gun cleaner

Special cleaner rich in active ingredients for effective cleaning of spray guns. Can be used universally for 1K solvent-based and 1K water-based paints, as well as for uncured 2K paints. The short and long lancets enable residue-free cleaning of the spray gun without having to dismantle it. Excellent for quick cleaning of the variator spray head.

Item name	Item number	Barcode	Single Price	
SprayMax gun cleaner spray (400 ml. container) transparent	56651		15,63 EUR/Stk	S

>> SprayMax 1K corrosion protection primer

Anti-corrosion primer with very good adhesion properties. Suitable for bare, sanded and unsanded substrates. Cannot be recoated with polyester materials. - Excellent corrosion protection - Very good adhesion - Welding test certificate - Can be used before welding - Welding beads are "repelled" - Can also be used on paint coatings

Item name	Item number	Barcode	Single Price	
SprayMax 1K anti-corrosion primer spray (400 ml. container) red-brown	56652		20,60 EUR/Stk	S

>> SprayMax 1K spot primer

Zinc chromate-free 1K primer for the quick isolation of small, flat sanded-through areas, e.g. on corners, edges and beads, - immediately before applying the water-based paint. No filler application necessary. - Corrosion protection on all metal surfaces - Can be painted over quickly - Good top coat level

Item name	Item number	Barcode	Single Price	
SprayMax 1K spot primer grey (400 ml. spray)	62709		19,50 EUR/Stk	S

>> SprayMax 1K Allgrund-Spray white

Universal primer. For interior and exterior use. As an adhesion primer on all substrates, with active corrosion protection effect on iron and steel. Also for zinc, galvanised steel, non-ferrous metals, light and non-ferrous metals, hard PVC, thermosetting plastics. - Very fast drying - Temperature resistant up to 180 C°

Item name	Item number	Barcode	Single Price	
SprayMax 1K Allgrund-Spray white (400 ml. container)	62404		20,98 EUR/Stk	S

>> SprayMax 1K filling primer - Primer Shade

Recommended for minor damage repair / spot repair and parts painting, as a rust protection primer or primer filler. Suitable substrates: Steel, galvanised steel, aluminium, GRP, cured old paint, spare parts primer, polyester substrates. (Do not recoat with polyester and EP products).

Item name	Item number	Barcode	Single Price	
SprayMax 1K Filling Primer Spray PS1 white (400 ml. container)	56653		20,60 EUR/Stk	S
SprayMax 1K filling primer spray PS2 light grey (400 ml. container)	56654		20,60 EUR/Stk	S
SprayMax 1K filling primer spray PS4 medium grey (400 ml. container)	56655		20,60 EUR/Stk	S
SprayMax 1K filling primer spray PS6 dark grey (400 ml. container)	56656		20,60 EUR/Stk	S
SprayMax 1K Filling Primer Spray PS7 black (400 ml. container)	56657		20,60 EUR/Stk	S
SprayMax 1K filling primer spray beige (400 ml. container)	56658		20,60 EUR/Stk	S

>> SprayMax 2K acid primer

2K primer for quick isolation of sanded-through areas as part of a car refinish. For cleaned and sanded substrates such as steel and especially aluminium, hardened substrates, 2K fillers and old paintwork. - Very good adhesion - Excellent corrosion protection, especially aluminium - Fast process times thanks to fine atomisation with minimal overspray - Fast drying - Can be painted over with commercially available 1K and 2K acrylic fillers (Do not overcoat with water-based paints or 2K EP/UP primers/fillers)

Item name	Item number	Barcode	Single Price	
SprayMax 2K acid primer spray (250 ml. container) olive grey	56660		23,48 EUR/Stk	S
SprayMax 2K acid primer spray (400 ml. container) olive grey	56661		31,25 EUR/Stk	S

>> SprayMax 1K Rapid Epoxy Primer grey

1K epoxy primer for universal use, especially for small damage repairs through to spot repairs. Best possible adhesion to all metals with excellent corrosion protection thanks to the epoxy binders - Very fast drying, can be sanded immediately - Compatible with 2K polyester spray filler - Can be painted over with all commercially available top coats - Wet-on-wet application under filler - Can also be used on various plastics and GRP

Item name	Item number	Barcode	Single Price	
SprayMax 1K Rapid Epoxy Primer grey (400 ml. spray)	57568		20,60 EUR/Stk	S

>> SprayMax 2K epoxy primer filler

Universally applicable 2-component epoxy primer filler for all problematic substrates, e.g. metal, non-ferrous metal, galvanised sheet steel or anodised aluminium surfaces.

Item name	Item number	Barcode	Single Price	
SprayMax 2K epoxy primer filler spray grey (400 ml. container)	56665		31,25 EUR/Stk	S
SprayMax 2K epoxy primer filler spray black (400 ml. container)	56666		31,25 EUR/Stk	S

>> SprayMax 2K Rapid primer filler

Universal, fast-drying 2-component primer for high-quality vehicle paintwork. Ideal for parts painting and minor repairs (spot repairs).

Item name	Item number	Barcode	Single Price	
SprayMax 2K Rapid primer filler spray (250 ml. container) grey	56662		23,48 EUR/Stk	S
SprayMax 2K Rapid primer filler spray (400 ml. container) grey	56663		31,25 EUR/Stk	S

>> SprayMax 2K DTM primer filler

Can be used universally, directly on bare sheet metal and all common plastic substrates. Special wet-on-wet filler. - Can be quickly painted over with water-based paints and conventional paints - Repair solution under spray filler

Item name	Item number	Barcode	Single Price	
SprayMax 2K DTM primer filler spray (250 ml. container) light grey	57340		23,48 EUR/Stk	S
SprayMax 2K DTM primer filler spray (250 ml. container) black	57341		23,48 EUR/Stk	S

>> SprayMax 2K KTL refinish spray black

2-component primer for quick and easy isolation of sanded-through or other imperfections in a black cathodic dip primer. Colour and gloss level matched to common cathodic dip coating types.

Item name	Item number	Barcode	Single Price	
SprayMax 2K KTL refinish spray (400 ml. container) black	63408		31,25 EUR/Stk	S

>> SprayMax 1K spray filler

Spray filler for levelling small depressions, residual filler unevenness, sanding marks and waves. Thanks to its outstanding stability, high coats can be applied in just a few spraying passes. The spray filler has excellent adhesion. - Fast drying and sandability

Item name	Item number	Barcode	Single Price	
SprayMax spray filler grey (400 ml. container)	56669		20,60 EUR/Stk	S

>> SprayMax 1K AC filler

Acrylic filler with good stability, fast drying and excellent dry-sanding properties. - High filling capacity - Good stability - Can be painted over with all common 1K basecoat and 2K topcoat systems, particularly suitable for water-based paints

Item name	Item number	Barcode	Single Price	
SprayMax 1K AC filler spray light grey (400 ml. container)	56670		20,60 EUR/Stk	S
SprayMax 1K AC filler spray medium grey (400 ml. container)	56671		20,60 EUR/Stk	S
SprayMax 1K AC filler spray dark grey (400 ml. container)	56672		20,60 EUR/Stk	S

>> SprayMax 2K acrylic sanding filler

Professional, very fast-drying filler with excellent filling capacity and outstanding levelling. Can be used for spot painting and medium-sized surfaces. Larger sanded-through areas can be primed with filler primer, for example.

Item name	Item number	Barcode	Single Price	
SprayMax 2K acrylic sanding filler spray grey (250 ml. container)	56676		23,48 EUR/Stk	S
SprayMax 2K acrylic sanding filler spray grey (400 ml. container)	56674		31,25 EUR/Stk	S

>> SprayMax control black

For checking all types of sanding work. - Very fine atomisation - Can be sanded wet or dry after just 1 min without having to lower the sandpaper

Item name	Item number	Barcode	Single Price	
SprayMax control black spray (400 ml. container)	56679		18,98 EUR/Stk	S

>> SprayMax 1K DTP plastic paint spray

Special product for fast topcoating of plastic surfaces in standard grey tones. Fast processes as it can be used directly on plastic surfaces, no additional adhesion promoter required. Ideal addition to the texture sprays available in the system. - Can be used directly on plastics - Available in the most common standard grey shades - Very good adhesion - Fast drying - Can be painted over with itself

Item name	Item number	Barcode	Single Price	
SprayMax 1K DTP plastic paint spray dark grey (400 ml. container)	61927		20,60 EUR/Stk	S
SprayMax 1K DTP plastic paint spray dark anthracite (400 ml. container)	61928		20,60 EUR/Stk	S
SprayMax 1K DTP plastic paint spray black (400 ml. container)	61929		20,60 EUR/Stk	S

>> SprayMax 1K textured paint DTP

Special product for reproducing a plastic structure in the automotive sector, especially for plastic bumpers, decorative mouldings and various plastic add-on parts. Fast process, as the 1K DTP textured coating can be used directly on plastic surfaces without adhesion promoter. - Various textures can be reproduced - Simple processing - Very fast drying - Very good adhesion - Can be painted over with commercially available 1K solvent or water-based paints and with 2K topcoat systems

Item name	Item number	Barcode	Single Price	
SprayMax 1K DTP textured paint spray fine black (400 ml. container)	63239		20,60 EUR/Stk	S
SprayMax 1K DTP textured paint spray fine grey (400 ml. container)	63240		20,60 EUR/Stk	S

>> SprayMax texture spray

Special product for reproducing a plastic structure in the automotive sector, especially for plastic bumpers. Various structural designs available. Ideal addition to the DTP and plastic sprays available in the system. - Selectable structural characterisation - Simple processing - Very fast drying - Can be painted over with all standard 1K basecoat and 2K topcoat systems - also in combination with the 1K DTP and plastic sprays

Item name	Item number	Barcode	Single Price	
SprayMax texture spray transparent medium (400 ml. container)	56693		20,60 EUR/Stk	S
SprayMax texture spray transparent coarse (400 ml. container)	56694		20,60 EUR/Stk	S
SprayMax texture spray black medium (400 ml. container)	56695		20,60 EUR/Stk	S
SprayMax texture spray grey medium (400 ml. container)	61926		20,60 EUR/Stk	S

>> SprayMax rim spray

Durable rim spray with high yield for new and used rims. - Fast drying - Resistant to stone chips, road salt and brake dust

Item name	Item number	Barcode	Single Price	
SprayMax 1K rim spray (400 ml. container) silver	56710		20,60 EUR/Stk	S

>> SprayMax 1K clearcoat high gloss

1-component clearcoat for fast coating and sealing of repair and new paintwork. Due to the good elasticity of the paint film, application is particularly recommended on soft, flexible components such as plastic parts. - Easy processing - Good drying - No colour deviation - Good weather resistance with excellent UV protection - Very good levelling - Very good polishability Gloss level: high gloss 87+/-4 at 85° measuring angle

Item name	Item number	Barcode	Single Price	
SprayMax 1K clear lacquer spray (400 ml. container) high gloss	63241		20,60 EUR/Stk	S

>> SprayMax 1K clearcoat

1-component clearcoat for quick coating and long-term sealing of repair and new paintwork. - Easy processing - Fast drying - No colour deviation - Good weather resistance - Very good levelling - very good polishability Gloss level: matt 10+/-2 at 85° measuring angle glossy 78+/-4 at 85° measuring angle

Item name	Item number	Barcode	Single Price	
SprayMax 1K clear lacquer spray (400 ml. container) transparent matt	56711		20,60 EUR/Stk	S
SprayMax 1K clear lacquer spray (400 ml. container) transparent glzd.	56712		20,60 EUR/Stk	S

>> SprayMax 2K clearcoat

2-component clearcoat with very high resistance to chemicals, petrol and weathering for high-quality, long-term sealing of repair and new paintwork on vehicles and motorbikes. Gloss level: matt 16+/-2 at 85° measuring angle silk matt 36+/-2 at 85° measuring angle glossy 88+/-4 at 85° measuring angle

Item name	Item number	Barcode	Single Price	
SprayMax 2K clear lacquer spray (400 ml. container) glossy	56713		30,20 EUR/Stk	S
SprayMax 2K clear lacquer spray (400 ml. container) matt	56724		30,20 EUR/Stk	S
SprayMax 2K clear lacquer spray (400 ml. container) silk matt	56725		30,20 EUR/Stk	S

>> SprayMax 2K Rapid clearcoat

2-component clearcoat with very fast drying time, very high resistance to chemicals, petrol and weathering for high-quality, long-term sealing of repair and new paintwork on vehicles and motorbikes. - Very fast drying - Very smooth flow - long-lasting high gloss - Particularly suitable for small areas Gloss level: glossy 90+/-4 at 20° measuring angle

Item name	Item number	Barcode	Single Price	
SprayMax 2K Rapid clear lacquer spray (250 ml. container)	56714		22,28 EUR/Stk	S

>> SprayMax 2K headlight clearcoat

Special 2K 2in1 headlight clearcoat for renewing or repairing the protective coating of polycarbonate windscreens. Highly transparent, light and weather-resistant clearcoat. Increases resistance to environmental influences (UV light, salt water, car wash, etc.) and protects against new damage. - Primer and clearcoat in ONE - Protects against yellowing

Item name	Item number	Barcode	Single Price	
SprayMax 2K -2in1- headlight clearcoat spray (250 ml. container)	62402		24,43 EUR/Stk	S

>> SprayMax spray paint

Beispritzlack is a speciality product for homogeneous paint transitions in the topcoat area of 1K / 2K clear coats and 2K topcoats with very good topcoat results. - Transition-free edge zones in the area to be painted - Very good dissolving properties - No colour deviation - Dries glossy, does not need to be polished in many cases and therefore produces very good finish results

Item name	Item number	Barcode	Single Price	
SprayMax spray paint (400 ml. container) transparent	56716		19,70 EUR/Stk	S

>> SprayMax spray dilution

Spray-on thinner is a speciality product for homogeneous paint transitions in the topcoat area of 1K / 2K clear coats and 2K topcoats with excellent topcoat results. - Seamless edge zones in the coating area - Excellent dissolving capacity - No colour deviations - Can be polished without a tear-off edge - Dries matt, must be polished

Item name	Item number	Barcode	Single Price	
SprayMax spray thinner (400 ml. container) transparent	56717		19,70 EUR/Stk	S

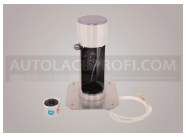
>> SprayMax 1K finish control spray

For optimum control of the polishing result between the finishing steps. Removes oily and waxy polish residues and thus makes remaining sanding marks and similar polishing defects visible. - Makes remaining sanding marks visible - removes oily and waxy polish residues - Simple and quick application

Item name	Item number	Barcode	Single Price	
SprayMax 1K finish control spray (400 ml. container)	63388		15,63 EUR/Stk	S

> FillClean filling device and accessories

>> FillClean pneumatic filling device



FillClean is an automatic filling device for cleaning-free filling of FillClean cans that are already pre-filled with specific solvent and propellant. The filling of the original colour tone is possible for both solvent-based and water-based paint systems from the respective car refinish paint manufacturers or other paint manufacturers. Note: An important technical optimisation has been made to the FillClean filling device. An original colour shade can only be filled with the filling pad inserted. The new FillClean filling device has been equipped with the appropriate safety mechanism. Scope of delivery: 1 FillClean filling device, 1 FillClean filling cylinder and 1 fixing screw

Item name	Item number	Barcode	Single Price	
FillClean pneumatic filling device from Fillon Pichon	56740		1.322,44 EUR/Stk	X
FillClean fixing plate incl. screws	56741		70,73 EUR/Stk	X

>> FillClean filling cap

The FillClean cap set enables clean-free filling of SprayMax 2K Fill In for 2K solvent-based top coats and 1K Fill In cans.

Item name	Item number	Barcode	Single Price	
FillClean filling cap	56743		1,37 EUR/Stk	X

>> SprayMax Fill In for 1K water-based paint

For colour-specific filling with 1K water-based paints, in Nexa Autocolor brand and quality The result is a ready-to-use SprayMax 1K spray paint can with water-based paint in the desired colour. Highest product and result quality are guaranteed. The SprayMax Fill In cans each have their own technical paint formulation and are optimally matched to the respective paint systems of the paint manufacturers. The cleaning-free cap is required to fill the Fill In spray can with the new FillClean filling device - this can be ordered in a set of 6 (no. 56743).

Item name	Item number	Barcode	Single Price	
SprayMax 1K Fill-In Series D (400 ml. container)	56718		8,90 EUR/Stk	S

>> SprayMax Fillclean for 1K solvent-based paints

For the colour-specific filling of solvent-based 1K basecoats, in the brand and quality of the following paint manufacturers or other solvent-based paint systems. The result is a ready-to-use SprayMax 1K spray paint can with 1K solvent-based basecoat in the desired colour. Highest product and result quality are guaranteed.

SprayTEC copper spray (400 ml. container)	56804		8,91 EUR/Stk	S

>> SprayTec silicone spray

Colourless care and maintenance product for the car, motorbike, leisure, decoration, garden and household sectors. Can be used universally on rubber, plastic, leather, vinyl, wood, glass and metal parts indoors and outdoors.

Item name	Item number	Barcode	Single Price	
SprayTEC silicone spray (400 ml. container)	56797		6,56 EUR/Stk	S

Paint preparation

We offer a broad product portfolio for paint preparation: system boxes, fine abrasives, polishes as well as polishing carriers and discs and the appropriate accessories. Modern paint systems not only serve as functional surface protection. Modern paint preparation also has to fulfil requirements in terms of design and visual quality. It must therefore be possible to remove defects such as dust inclusions or scratches easily and reliably. - Polishing of imperfections - Polishing scratch-resistant clear coats - Hologram processing - Polishing of fogged zones - Preparation of matt and weathered old paintwork - Sealing and long-term protection of the paintwork Discover our premium brands such as AP-Merit, 3M, SCHOLL CONCEPTS, MIRKA, RUPES and FARECLA.

> 3M Perfect-It eccentric polishing system

>> 3M Perfect-It random orbital sanding compound 34131E

3M Perfect-It Random Orbital Polishing Paste is the fast-removing, professional polishing paste formula developed for our 3M Random Orbital Polishing System. For use with our 3M Perfect It random orbital polishing pads for fast removal of 3000 grit or finer sanding marks. It works on fresh or hardened paints and clear coats. - FAST REMOVAL: The 3M Perfect It random orbital sanding compound quickly removes sanding marks with a grit of 3000 or finer without additional swirl marks. This makes the polishing step easier. - VERSATILE: Does a great job on fresh and cured paintwork so you can achieve a high quality finish - LESS DIRT: Easy to clean formula means you can quickly move on to the next application - MATCHED SYSTEM COMPONENTS: Part of the easy-to-use 3M Perfect-It random orbital sander paint finishing system that includes pads, fluids and tools. The system is designed to achieve a high quality finish regardless of the user's skill level. - LOWER SPIN RPM: Polishing with eccentric polishing machines produces a lower spin speed than conventional rotary tools

>> 3M Perfect-It 1-Step Finish Material 33039

The 3M Perfect-It 1-Step Finish Material is a high performance, high removal finish material for removing 3M™ Trizact™ 8000 and finer scratches from most paints in one step. It provides the removal of an abrasive compound and the swirl-free finish of a polish. Intended for use with 3M Perfect-It 1-Step Finishing Foam Pads. This unique formula provides the removal of a sanding compound, but the handling and finish of a polish. In a single step, a great result can be achieved on all lighter coloured vehicle finishes. In the 3M finishing process, use this product after applying 3M Trizact 8000 to quickly achieve a fantastic, high-gloss finish. For darker colours, follow up with 3M Perfect-It Ultrafina SE polish and the accompanying blue foam pad to remove any remaining swirl marks. - perfect interaction in combination with the 3M polishing foam purple - wetter formula allows longer working time without drying out - can be easily wiped off, less time required for cleaning

> AP-Merit polishing system

>> AP-Merit abrasive polish "Heavy Duty" coarse

Innovative machine polish for the rapid refinishing of both heavily weathered paintwork and the removal of deep scratches. Effective removal of paint mist and sanding marks up to 1,500 grit. With its extremely homogeneous fillers, "Heavy Duty" achieves very fast and effective sanding and at the same time produces an excellent gloss. "Heavy Duty" is open for a long time, making it suitable for large areas without dust formation or drying out. Suitable for all types of paints.

Item name	Item number	Barcode	Single Price	
AP-Merit abrasive polish "Heavy Duty" (250 ml. container)	75904		19,38 EUR/Stk	G
AP-Merit abrasive polish "Heavy Duty" (1000 ml. container)	75905		51,09 EUR/Stk	G

>> AP-Merit anti-hologram polish high gloss

Latest generation of machine micro-polishes for removing holograms, micro-scratches and sanding marks up to grit size 3000, suitable for all paint systems. The use of highly specialised, extremely homogeneous fillers produces a brilliant and permanent high gloss, even under extreme lighting conditions and with dark and similarly sensitive colours. Holograms and micro-scratches are removed mechanically and not, as is often the case, simply covered over. Anti-hologram polish is extremely economical, easy to polish and can be removed without leaving any residue.

Item name	Item number	Barcode	Single Price

> Farecla polishing system

>> Farecla G3 Premium grinding and polishing compound

G3 Premium Sanding and Polishing Paste is the only compound you need to permanently remove sanding marks from P1500 grit or finer sandpaper from modern paint systems. Polishing splashes are also removed. The G3 Premium sanding and polishing compound leaves a high-gloss surface and also has a low product consumption. When in use, G3 Premium is transparent and therefore allows the paintwork to be seen during preparation. Delays during inspection are a thing of the past. For best results, we recommend combining it with a G Mop "High Cut" polishing sponge at 900 to 1300 rpm. For dark-coloured paintwork, the G Mop "Finishing" polishing sponge can be used for a perfect finish. This completely removes all remaining swirls and holograms, resulting in an even better shine. - Very economical and powerful when sanding and polishing - Fast and permanent results - Better gliding properties - Clean to use and easy to wipe off - Suitable for all types of paint

Item name	Item number	Barcode	Single Price	
Farecla G3 PREMIUM polish (1 kg. container)	58438		45,92 EUR/Stk	E

>> Farecla G3 Glaze gloss increase

Farecla G3 Glaze Gloss Enhancer is a protective product with excellent filling ability for minor scratches and swirls. It leaves extra gloss and a protective layer on the surface and provides a water-repellent but breathable and durable coating on all paint systems. Farecla G3 Glaze Gloss Enhancer is ideally applied with a Farécla G Mop "Finishing" polishing sponge for surface finishing, which have been developed together to achieve optimum performance. - Quickly improved gloss - Excellent filling of small scratches - Protective properties - Colour refreshment

Item name	Item number	Barcode	Single Price	
Farecla G3 GLAZE gloss enhancement (1 litre container)	58150		30,42 EUR/Stk	E

>> Farecla G360 Super Fast Compund polishing compound

The polishing compound G360 Super Fast Compound is used with a G Mop Super High Cut Pad red and removes sanding marks from max. P1500 quickly and with little effort. Sanding with a finer P3000 grit is unnecessary. Saves time and money. The G360 compound becomes transparent during processing. As a result, you can see how the scratches disappear more and more during application. The abrasive compound polishing paste, in combination with the yellow, flexible G Mop sponge, removes all polishing marks and holograms, resulting in a flawless surface on light colours. - Very easy to use - High sanding power - Long-lasting sanding power - Lasting results without touch-ups - No silicones, no fillers TIP: For dark colours, we recommend using the G360 Super Fast Finish polish with a black, flexible G Mop Finish sponge. This removes even the finest marks and enhances the shine)

Item name	Item number	Barcode	Single Price	
Farecla G360 Super Fast Compund polishing compound (1 kg. container)	62478		46,25 EUR/Stk	E

>> Farecla G360 Super Fast Finish polish

The G360 Finish polish is used with a flexible black G Mop Finish sponge and removes holograms and other small scratches quickly and with little effort. Ultimate deep shine. The polish becomes transparent during application. Result immediately visible. - Ideal for darker colours, after application of Farècla G360 Super Fast Compound. - Silicone-free, water-based

Item name	Item number	Barcode	Single Price	
Farecla G360 Super Fast Finish polish (1 litre container)	62480		49,92 EUR/Stk	E

>> Farecla Super HIGH CUT red

The G Mop Super High Cut Pad, which was developed in conjunction with the G360 Super Fast polish, removes sanding marks from grit size P1500 and thus eliminates the need for expensive sanding discs in grit size P3000. With a faster cut, this special microfibre pad requires only half the amount of polish normally used. Due to the low pressure with the machine, it also leads to less fatigue. - Super-fast cut - Only light pressure required - Excellent handling and flexibility - Outstanding durability - 150 mm dm with Velcro backing

Item name	Item number	Barcode	Single Price

>> Scholl Concepts Premium Vintage Carnauba Wax

If your car is more than just a means of transport for you, if you have discovered your love of detail in your vehicle ... then you've come to the right place! Scholl Concepts handcrafted Premium Vintage Wax is for those who see their car as a work of art and treat it as such. The wax is painstakingly handcrafted in very small batches to maintain the exceptionally high standard we promise. Each tin of Scholl Concepts Premium Vintage Wax contains 60% (by volume) of T1-grade Brazilian carnauba wax. Other ingredients include refined natural cocoa, and the most exclusive oils that create a stunning shine. It's a sophisticated look that only such a unique premium wax can deliver, an unmistakable lustre that will run across every curve and body line of your vehicle. Scholl Concepts Premium Vintage Wax creates a truly stunning lustre that only enthusiasts can appreciate in its entirety. Not only does the paint take on a wet look, it shines with such intensity that the reflections of perfect clarity and colour accuracy will amaze you. Carnauba wax is one of the best natural protective elements on earth. Carnauba wax swells slightly on contact with water, protecting your paintwork from rain and environmental influences. Scholl Concepts Premium Vintage Wax contains more than 60% (by volume) of the world's best carnauba wax: Brazilian T1 grade. Each application of Scholl Concepts Premium Vintage Wax coats your paint with a thick layer of carnauba wax to protect it from acid rain, air pollution, bird droppings, insects and plant debris. Paint that you coat with Scholl Concepts Premium Vintage Wax will have exceptional water repellency. The water is bundled into small droplets, like pearls, that roll effortlessly off the surface. These beads of water wash away fresh dust and road grime in the process, keeping your paint clean. This self-cleaning ability is known as the "lotus effect".

> Vehicle care interior and exterior

>> Scholl Concepts Shampol Premium Car Shampoo

ShamPol combines the properties of a highly effective car shampoo, a paint sealant and a drying aid. The foaming gel formulation effortlessly removes heavy soiling from paintwork, chrome, glass, plastic, tyres, rims and convertible tops. When cleaning with ShamPol, a polymer protective layer is applied to all treated surfaces, which not only protects the vehicle, but also ensures that the water film runs off independently over a large area after rinsing with clear water. In contrast to conventional shampoos, this significantly reduces the time required for "stripping". (Free from volatile silicones, contains silicone oils)

Item name	Item number	Barcode	Single Price	
SHAMPOL Premium car shampoo (500 ml. container) 3-in-1	58902		15,75 EUR/Stk	R

>> Scholl Concepts Clay & Finish Fluid CF02 + Clean Pad

CF02 Clay & Finish Fluid is ideal for cleaning and degreasing freshly polished paintwork and for checking the surface finish. CF02 leaves a streak-free result and thus enables a reliable assessment of the physical gloss level after the final polishing step. Even the smallest imperfections, sanding marks and, above all, holograms can be easily visualised. CF 02 is also ideal for contaminating soiling on paint and glass surfaces in combination with cleaning clay or especially the Clay & Clean Rubber Pad for machine use. This combination is ideal for removing paint mist, flash rust and other stubborn dirt before polishing. CF02 application as a lubricant for kneading: Spray Clay & Finish Fluid CF02 onto the surface to be cleaned and the Clay & Clean Rubber Pad. Always ensure there is enough fluid so that the surface is not kneaded dry. Effortlessly remove resin wax residues, insects, stains, overspray and other soiling from car paintwork, glass and painted plastic parts. CF02 Application as a control spray: Simply spray the Clay & Finish Fluid CF02 onto the surface to be checked and then gently wipe off with a soft, edgeless microfibre cloth. You can already see the result.

>> COLAD BodyGuard® painting overall

The Colad BodyGuard® coverall provides optimum protection against overspray and prevents fibres, dust and fluff from contaminating the painted surface. The special manufacturing process ensures a high level of comfort throughout the entire working day. The coverall closes tightly and is made of breathable, elasticated material with an antistatic coating. Thanks to the grey colour, the Colad BodyGuard® is not transparent and simply looks good. The Colad BodyGuard® coverall is washable and can therefore be worn for several months. - Extremely breathable properties - Soft, stretchy cuffs - Wear-resistant zip - Two back pockets - robust grey nylon fabric - Special freedom of movement According to 1149-3, method 2: Induction decomposition. Personal protective equipment (PPE): Category I in accordance with EU Directive 2016/425, simple protection of users against minor risks.

>> 3M Respirator 8710E FFP1

The 3M™ 8710E respirator provides professional protection at an economical price. With its traditional fit, it protects against fine dusts and mists - and is light and comfortable to wear. Thanks to its flexible nose clip, the mask adapts perfectly to the shape of the face. Its innovative filter medium ensures reliable protection and low breathing resistance. The maximum use limit is 4 times the limit value for particles. There are numerous areas of application: construction, shipbuilding and repair, pharmaceuticals, rubber/plastics, mechanical engineering, iron and steel foundries, pesticides, ceramics, horticulture, laboratory, agricultural industry, base metal production, fine chemicals. The mask is compatible with 3M™ safety goggles. Approval according to standard EN 149:2001+A1:2009. - Without exhalation valve - 20 pieces per pack

Item name	Item number	Barcode	Single Price	
3M Respirator 8710E FFP1 (20 pcs./pkg.)	63051		23,20 EUR/Pkg	Y

>> 3M Aura respirator 9310+ FFP1

The 3M™ Aura™ 9310+ folding respirator allows you to breathe almost effortlessly and is extremely comfortable to wear. It owes its comfort plus in particular to the three-part design with the newly developed filter fleece. The advantages of the particle mask start with good visibility: the sealing points on the top of the mask reduce the fogging of glasses. The new filter technology ensures comfortable breathing. It combines the advantages of 3M™ Electret filter technology with those of the new advanced technology for barely noticeable breathing resistance with safe filter performance. The application limit is 4 times the limit value for particles. They are used in the construction industry, in agriculture, in quarries, in the clay and ceramics industry, in iron and steel foundries, in the chemical industry, in metalworking and processing, in the pharmaceutical industry and in construction. Approval according to standard EN 149:2001+A1:2009. - Individually packaged - Without exhalation valve - 20 pieces per pack

>> 3M Aura respirator 9322+ FFP2 with exhalation valve

The 3M™ Aura™ 9322+ folding respirator allows you to breathe almost effortlessly and is extremely comfortable to wear. It owes its comfort plus in particular to the three-part design with the newly developed filter fleece. The advantages of the particle mask start with good visibility: the sealing points on the top of the mask reduce the fogging of glasses - especially in conjunction with its 3M™ Cool Flow™ exhalation valve. This valve increases wearing comfort, especially in hot and humid environments, as it allows respiratory heat and moisture to escape easily. The new filter technology also ensures comfortable breathing. It combines the advantages of 3M™ Electret filter technology with those of the new advanced technology for barely noticeable breathing resistance with reliable filter performance. The application limit is 10 times the limit value for particles. They are used in the construction industry, in agriculture, in quarries, in the clay and ceramics industry, in iron and steel foundries, in the chemical industry, in metalworking and processing, in the pharmaceutical industry and in construction. Approval according to standard EN 149:2001+A1:2009. - Individually packaged - with cool flow exhalation valve - 10 pieces per pack

>> 3M special mask 9922 FFP2 (10 pcs./pkg.) with exhalation valve

The 3M™ 9922 respirator is part of the 3M special mask programme. It was developed for special work areas. The mask has an integrated layer of special activated carbon and thus ensures additional protection and reduced odour nuisance. Its advantages range from the padded nose clip with optimum face fit to the 3M™ Advanced Electret filter medium and the adjustable, extra-wide, tear-resistant and textile strap with colour coding. The 3M™ Cool Flow™ exhalation valve increases wearing comfort, especially in hot and humid environments, as it allows respiratory heat and moisture to escape easily. The 3M™ 9922 respirator is compatible with 3M™ safety spectacles and has protection level FFP2 NR D. The application limit is 10 times the limit value for particles - it is also effective against ozone and unpleasant organic odours below the limit value. Its areas of application range from welding and waste disposal to animal carcass utilisation. Approval in accordance with standard EN 149:2001+A1:2009. - With cool flow exhalation valve - 10 pieces per pack

>> SATA® air star C half-mask respiratory protection set

Ventilated half-mask respiratory protection set. The comfortable half mask with breathing air supply. SATA® air star® C is supplied with compressed air, offers maximum visibility and far greater respiratory protection than any half mask with filter cartridges. The user receives purified, evenly flowing breathing air without inhalation resistance directly into the mask. The climate in the mask can be individually regulated with a breathing air warmer and humidifier; both are available as accessories. Note: The working air coming from the compressor must be treated by high-quality filter units in accordance with DIN EN 12021. Recommended: SATA® Filter 444® or SATA® Filter 484® - Air consumption: 150 NL/min. - Recommended inlet pressure: 4 bar (58 psi) - Maximum operating pressure: 4 bar - Maximum volume flow: 350 Nl/min - Supplied with belt unit and activated carbon adsorber, disposable hood

Item name	Item number	Barcode	Single Price	
SATA® air star C™ half mask respirator set complete	50051		567,01 EUR/Stk	W

>> SATA® air vision 5000 respiratory protection set

With the new SATA® air vision 5000, you not only have your health protection "in sight", but also experience a new, comfortable way of breathing thanks to a completely redesigned type of breathing air supply. Fresh air-supplied respiratory protection bonnet reliably protects the head area from harmful emissions. The large, low-reflection visor maximises the field of vision. For a comfortable The circumference, height and position of the bonnet can also be adjusted to suit almost any head shape for comfortablewearing. The new breathing air distribution reduces the air flow and therefore the noise level to 64 dB(A). The modular design of the harness system allows customisation and expansion with additional subsystems to meet work requirements. SATA CCS discs on the canopy and control unit allow individual marking of the individual components and thus avoid confusion. - Required operating overpressure without spray gun: 2.5 bar -3.0 bar - Required operating overpressure with spray gun (in conjunction with 1.2 metre spray air hose): 4.0 bar to 6.0 bar - Max. operating pressure: 10.0 bar - Required minimum volume flow: 150 Nl/min - Maximum volume flow (6 bar, air distributor fully open): 740 Nl/min - Supplied with bonnet, belt and activated carbon air control unit

Samurai Black snap-off blade 18 mm in safety dispenser	65068		4,74 EUR/Pkg	C

>> Martor SECUNORM 300 knife black

Surprisingly light, convincingly good. With rounded trapezoid blade. The automatic blade retraction of the SECUNORM 300 guarantees a high level of safety against cutting injuries. As soon as you have started cutting, remove your thumb from the slider. This allows the blade to retract into the handle immediately after leaving the cutting material. - Ergonomic handle (non-slip soft grip) - Pleasantly light (52 grams) - very abrasion-resistant (glass fibre reinforced plastic) - with rounded trapezoid blade

Item name	Item number	Barcode	Single Price	
Martor SECUNORM 300 black with trapezoid blade	62238		10,12 EUR/Stk	W
Martor trapezoid blade no. 65232 (10 pcs./pkg.)	62245		5,88 EUR/Pkg	W

>> Martor SECUPRO 625 Knife

The SECUPRO 625 is at the top of our range of ergonomic plier handle knives. Its claim is clear: premium. Because it combines what professional users want: an aluminium handle. A smooth-running lever to release the blade. A particularly large cutting depth in combination with a fully automatic blade retraction. A convenient blade change. And the secure feeling of holding a high-end tool in your hand. The fully automatic blade retraction of the SECUPRO 625 guarantees you a very high level of safety against cuts. This is because the blade retracts into the handle immediately after leaving the cutting material. Even if you continue to operate the lever. - With rounded trapezoid blade

Item name	Item number	Barcode	Single Price	
Martor SECUPRO 625 with rounded trapezoid blade	62244		36,83 EUR/Stk	W
Martor trapezoid blade no.: 60099 (10 pcs./pkg.)	62243		5,00 EUR/Pkg	W

Item name	Item number	Barcode	Single Price	
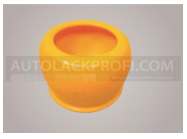
Wooden stirring rod 30 cm (10 pcs./pkg.)	61723		5,70 EUR/Pkg	H

>> Can-Opener Multi (can opener)

For opening paint cans. Removing paint residues. Spreading and removing sealant and much more.

Item name	Item number	Barcode	Single Price	
Can-Opener Multi (can opener)	58230		7,62 EUR/Stk	H

>> Storage tray with magnetic base



Foam storage tray with magnetic base for small parts such as screws, clips, etc. during repairs. Can be attached anywhere on the vehicle (metal base).

Item name	Item number	Barcode	Single Price	
Magnetic screw tray (foam)	60985		40,22 EUR/Stk	H

>> Magnetic strip

Magnetic strips for fixing e.g. cabin protection film or as edge protection for sanding work. - Set of 4 pieces 55 cm strips

Item name	Item number	Barcode	Single Price	
Magnetic strips (4 pcs. x 55 cm)	44646		50,02 EUR/Pkg	E

>> Dosing bottle for dilutions 1000 ml.

made of plastic

Item name	Item number	Barcode	Single Price	
Dosing bottle 1000 ml.	44713		9,58 EUR/Stk	E

>> Plastic funnel

Made of oil and acid-resistant plastic.

Item name	Item number	Barcode	Single Price	
Plastic funnel 200 x 17 mm	49722		8,96 EUR/Stk	C

>> Drum pump complete with certificate

Barrel pump, complete for 200 litre barrels with discharge elbow, barrel screw connection, earthing cable. Note: When pumping flammable media (e.g. nitro thinner) or when used in potentially explosive environment, potential equalisation must be established (attach earthing cable)!

Item name	Item number	Barcode	Single Price	
Drum pump, complete for 200 litre drums	60998		386,48 EUR/Stk	X

>> Fine lacquer plane

For quick processing of runners and the like. - Fine file

Item name	Item number	Barcode	Single Price	
Lacquer plane fine 20 x 42 mm	44224		39,28 EUR/Stk	E

>> AP-Merit lacquer plane (lacquer nose remover)

High-quality special tool made of carbide for easy removal of hardened runners and dust inclusions. - Includes cord and storage box

Item name	Item number	Barcode	Single Price	
AP-Merit lacquer plane (lacquer nose remover)	75775		51,44 EUR/Stk	G

>> Festool paint scraper

For removing small bumps caused by paint defects or dust inclusions. - Simple and targeted beheading of dust particles / flat scraping: radius at the front, flat edges at the sides - Permanently sharp: made entirely of carbide, all-round hollow grinding - The thickness of the cord ensures the correct cutting angle

Item name	Item number	Barcode	Single Price	
Festool lacquer scraper carbide	53361		88,81 EUR/Stk	R

>> Paint scraper blade holder

Holder for paint scraper blade no.: 44225 or no.: 53361 Magnetic, can also be used as a sanding flower stamp (for Velcro flowers) Scraper blade not included!

Item name	Item number	Barcode	Single Price	
Paint scraper blade holder, straight	46861		16,07 EUR/Stk	E

>> Mirka Shark Blade

For the removal of dust inclusions. - Made of metal including storage bag

Item name	Item number	Barcode	Single Price	
Mirka Shark Blade (paint nose remover) 48 x 28 mm	53368		48,50 EUR/Stk	E

>> Devilbiss SHiM-MASK masking stencil

Stainless steel masking template to prevent rub-through when sanding or grinding small surface irregularities. Ideal for use with paint stripping blades. - 12 x 12 cm with 4 different shapes

Item name	Item number	Barcode	Single Price	
Devilbiss SHiM-MASK masking stencil	57654		34,51 EUR/Pkg	F

>> Paint defect repair kit

For removing paint defects such as dust inclusions, runs, etc. Contents: - 3 pcs. Fine sanding blocks made of carbon (P 800, P 1500 and P 3000) - 100 ml. Polish cream - 1 pc. Polish cloth - 1 pc. Stripping block for the carbon blocks

Item name	Item number	Barcode	Single Price	
6-piece paint defect repair kit	44649		97,10 EUR/Set	E

>> Paint defect sanding blocks

For removing paint defects such as dust inclusions, runs, etc.

Item name	Item number	Barcode	Single Price	
Sanding block red 800	44650		23,43 EUR/Stk	E
Sanding block blue 1500	44651		23,43 EUR/Stk	E
Sanding block grey 2000	44652		27,05 EUR/Stk	E
Sanding block green 3000	44653		27,05 EUR/Stk	E
Honing block for fine sanding blocks	44655		13,10 EUR/Stk	E

>> AP-Merit lint needle set

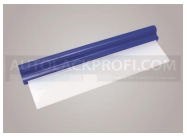
Needle for removing dust particles from fresh paintwork. - including one holder and 10 spare needles

Item name	Item number	Barcode	Single Price	
AP-Merit lint needle set (1 holder + 10 lint needles)	75673		15,49 EUR/Stk	G
AP-Merit refill (10 lint needles)	75674		10,27 EUR/Pkg	G

>> Spare needles for linting needle set

Item name	Item number	Barcode	Single Price	
Replacement. Lint needles	44980		9,05 EUR/Pkg	E

>> Water scraper "Water-Blade"



For quick and easy drying of vehicles and other surfaces.

Item name	Item number	Barcode	Single Price	
Water scraper "Water-Blade" 30 cm	42400		14,75 EUR/Stk	E

>> Water slide

With 120 cm metal handle, rubber lip 45 cm. - 2-piece

Item name	Item number	Barcode	Single Price	
Water scraper 60 cm with 120 cm metal handle	63467		11,80 EUR/Stk	E
Water slide 60 cm with 140 cm wooden pole	29163		10,83 EUR/Stk	E

>> Extra strong heavy goods bag

45 x 90 cm, transparent, 135µ. For the disposal of film or empty plastic containers.

Item name	Item number	Barcode	Single Price	
Extra strong heavy goods bag 45 x 90 cm transparent	54065		7,19 EUR/Pkg	C

>> Professional quality bin liner

70 x 110 cm (120 lt.), black, 60µ

Item name	Item number	Barcode	Single Price	
Professional quality bin liner 70 x 110 cm (120 lt.) black	54066		6,56 EUR/Rll.	C

>> Marker pen 2-3 mm Chalk Marker

Perfect for marking minor damage or dents on the vehicle in colour. Easy to remove with silicone remover. Set contains one piece each of green, yellow, orange, pink and red

Item name	Item number	Barcode	Single Price	
Marker pen chalk marker green fine (2-3 mm)	62966		6,58 EUR/Stk	E
Marker pen chalk marker neon yellow fine (2-3 mm)	62967		6,58 EUR/Stk	E
Marker pen chalk marker neon orange fine (2-3 mm)	62968		6,58 EUR/Stk	E
Marker pen chalk marker neon pink fine (2-3 mm)	62969		6,58 EUR/Stk	E
Marker pen chalk marker red fine (2-3 mm)	62970		6,58 EUR/Stk	E
Marker pen chalk marker set 5-piece (2-3 mm)	62971		32,92 EUR/Set	E

>> Finixa Fluo marking pen

For marking smaller accident sites or dust inclusions. Easy to remove with a degreaser. - Fluorescent

Item name	Item number	Barcode	Single Price	
Fluo marking pen green (5 mm - 15 mm)	60059		9,89 EUR/Stk	E
Fluo marking pen rose (5 mm - 15 mm)	60060		9,89 EUR/Stk	E

> Cleaner for painting work

>> RosAuto Remover water-based paint cleaner

Remover is a cleaning agent concentrate that is added to water and guarantees optimum washing of spray guns and objects that are soiled with water-based paints. When used with cold water, the remover significantly improves the washing of spray guns, even if there are partially dried paint residues. Keeps the diaphragm pumps, lines and spray nozzles clean.

Item name	Item number	Barcode	Single Price	
Remover Ros car cleaning agent concentrate (5 litre container)	58043		85,08 EUR/Stk	E

>> SprayMax gun cleaner

Special cleaner rich in active ingredients for effective cleaning of spray guns. Can be used universally for 1K solvent-based and 1K water-based paints, as well as for uncured 2K paints. The short and long lancets enable residue-free cleaning of the spray gun without having to dismantle it. Excellent for quick cleaning of the variator spray head.

Item name	Item number	Barcode	Single Price	
SprayMax gun cleaner spray (400 ml. container) transparent	56651		15,63 EUR/Stk	S

>> SprayMax Aqua silicone remover spray

Water-based, solvent-reduced and active ingredient-rich cleaning agent for use immediately before painting with water-based paints. This powerful product increases adhesion and reduces the electrostatic effect. High cleaning and degreasing power. - 400 ml. Spray can

Item name	Item number	Barcode	Single Price	
SprayMax Aqua Silicone Remover Spray (400 ml. container)	56648		15,00 EUR/Stk	S

>> SprayMax silicone remover spray

Rich in active ingredients, mild cleaning agent for the thorough removal of silicone, grease, oil, wax, dirt, tar and soot. The high-yield silicone remover has an excellent cleaning and degreasing effect and increases adhesion. The product is used when painting solvent-based paints. - 400 ml. spray can

Item name	Item number	Barcode	Single Price	
SprayMax silicone remover spray (400 ml. container) transparent	56647		12,75 EUR/Stk	S

>> Buffalo silicone remover MILD

Cleaning and degreasing agent for all metallic and polymer materials. Disposable tinplate container! - Longer drying time

Item name	Item number	Barcode	Single Price	
Buffalo silicone remover mild (30 litre container)	51608		179,17 EUR/Stk	E

>> AP-Merit 7539 Silicone remover long

Cleaning and degreasing agent for work prior to painting. For the safe removal of dirt, grease, oil, silicone, wax, tar, adhesive residues, etc. - Long flash-off time

>> SATAjet® X 5500 HVLP

Sophisticated coating systems and new processing recommendations create new possibilities, but also present the user with challenges. The SATAjet X 5500 sets a new standard for the future with the new X-nozzle system. The nozzle system is simple and easy to understand: The two proven technologies - HVLP and RP - remain the same. There are "I" and "O" nozzle sets for both technologies. The painter can choose between two jet shapes and thus the jet that suits him best. Advantages: Thanks to the new paint and air nozzles and the optimised air distribution in the gun body, the air distribution ring can be dispensed with. In addition, the volume of this Whisper Nozzle™ has been noticeably reduced during application, giving the painter a softer, more pleasant feeling when painting. - Revolutionary: The atomisation of the X-nozzles sets new standards - Noticeably quieter: Whisper nozzle™ thanks to optimised flow geometry, reduced volume in the relevant frequency ranges - Customised: Suitable for every application requirement such as properties of the paint system, climatic conditions or painting habits (working speed/control) - Precise: Optimised material distribution for more even and finer atomisation in both spray variants - Low maintenance: No air distributor ring required, making cleaning easier and quicker possible - Logical: Constant jet dimensions for all nozzle sizes (within the respective technology) with evenly increasing material throughput - Efficient: Significant material savings of up to 15 % are possible with the same application method - Gun inlet pressure HVLP: Application range 0.5 bar - 2.4 bar - HVLP spray stand: Application range 10 cm - 21 cm / recommended 10 cm - 15 cm - Weight without cup: Standard 476 gr. / Digital 478 gr. - Air consumption: 430 Nl/min - with swivel joint - Digital version is easy to read and EX protected - Guns are only available with RPS disposable cup system (1x0.3 lt.; 0.6 lt.; 0.9 lt. each)

>> SATAjet® X 5500 RP

Sophisticated coating systems and new processing recommendations create new possibilities, but also present the user with challenges. The SATAjet X 5500 sets a new standard for the future with the new X-nozzle system. The nozzle system is simple and easy to understand: The two proven technologies - HVLP and RP - remain the same. There are "I" and "O" nozzle sets for both technologies. The painter can choose between two spray patterns and therefore the spray that suits them best. Advantages: Thanks to the new paint and air nozzles and the optimised air distribution in the gun body, the air distribution ring can be dispensed with. In addition, the volume of this Whisper Nozzle™ has been noticeably reduced during application, giving the painter a softer, more pleasant feeling when painting. - Revolutionary: The atomisation of the X-nozzles sets new standards - Noticeably quieter: Whisper nozzle™ thanks to optimised flow geometry, reduced volume in the relevant frequency ranges - Customised: Suitable for every application requirement, such as properties of the paint system, climatic conditions or painting habits (working speed/control) - Precise: Optimised material distribution for more even and finer atomisation in both spray variants - Low maintenance: No air distributor ring required, making cleaning easier and quicker possible - Logical: Constant jet dimensions for all nozzle sizes (within the respective technology) with evenly increasing material throughput - Efficient: Significant material savings of up to 15 % are possible with the same application method - Gun inlet pressure RP: Application range 0.5 bar - 2.4 bar - Spray stand RP: Application range 10 cm - 21 cm / recommended 17 cm - 21 cm - Weight without cup: Standard 476 gr. / Digital 478 gr. - Air consumption: 290 Nl/min - with swivel joint - Digital version is easy to read and EX protected - Guns are only available with RPS disposable cup system (1x0.3 lt.; 0.6 lt.; 0.9 lt. each)

>> SATAjet® X 5500 RP cc

New clear lacquer guns and nozzle set for clear lacquers from SATA. The new 1.3 cc nozzle set has been specially developed for the new clear coats, available as a paint spray gun special edition in RED gun body. The 1.3cc nozzle set is now also available for retrofitting/converting existing SATAjet® X 5500 R spray guns. - Larger spray jet - Controlled application thanks to even finer atomisation and finer transitions - especially for complex geometries - Wetting of the surface even with low layer thicknesses, smoother surface - Uniform material quantity over the entire spray jet, reduced risk of so-called "greasy edges" - Adapted material distribution for modern clear coats - Usual simple cleaning effort - Optimum painting result

>> SATAjet® 5000 B RP Standard and RPS

The top-of-the-range SATAjet 5000 B model sets new standards in terms of quality and makes painting a real pleasure. The flexibility that this high-performance spray gun offers in terms of spray distance and inlet pressure is groundbreaking. This allows you to adjust the pressure and distance according to the paint used, the climatic conditions and your working style - and achieve perfect results. Economical thanks to RP optimised high-pressure technology. Ergonomics in perfection: The design of the SATAjet 5000 B was created by the design experts at Porsche Design Studio, who worked with SATA specialists to turn functionality into form. Thanks to its optimised grip contour, the high-quality gun sits perfectly in the hand. The grip area on the digital model is just as compact as on the standard model, making it ideal for painters with different hand sizes. Easy handling: The quality of the ergonomic design is not only evident in the handle area, but also in all attachments such as the round/wide jet and paint quantity control as well as the air micrometer. The paint spray gun is extremely robust, which ensures a long service life, and its low weight also makes it pleasant to work with. The SATAjet 5000 B. A tool in top form. Advantages: - Optimised nozzle concept for maximum flexibility in terms of inlet pressure and spray distance - Ergonomic handle contour - Surface in pearlchrome™ for easy cleaning, corrosion-resistant - Easy to operate adjustment elements - Secure bracket roller - paint needle can be mounted easily, safely and quickly - Swivel joint with new high-performance seal - A compact handle shape for standard and digital guns - Optimised round / wide jet adjustment with a ½ turn - Gun inlet pressure RP: Operating range 0.5 bar - 2.4 bar - Spray stand RP: Application range 10 cm - 21 cm / recommended 17 cm - 21 cm - Weight without cup: Standard 476 gr. / Digital 478 gr. - Air consumption: 290 Nl/min - with swivel joint - Digital version is easy to read and EX protected - Available either as QCC variant (with top cup) or RPS variant (with disposable cup system)

>> SATAjet® 1000 K RP

The compact and lightweight SATAjet 1000 K is the all-rounder among spray guns with material supply from pressure tanks or via double diaphragm pumps. Thanks to the wide range of nozzles, this spray gun is ideal for processing a wide variety of spray media: from low-viscosity wood stains, clear lacquers, textured lacquers and glazes to adhesives and other thixotropic materials. With extensions in various designs, even hard-to-reach areas can be coated perfectly. Special features: - For connection to material supply systems such as pressure tanks, double diaphragm pumps and central paint supply systems - Can be used for processing a wide range of materials - water-based or solvent-based - Easy-to-grip, ergonomic handling of the operating elements such as material quantity regulation Round/wide jet regulation for one-handed operation and integrated air micrometer - QC Quick Change thread for quick and easy air nozzle changes with just 1.5 turns - Robust, easy-to-clean surface - Special air guide on the horns of the air cap prevents deposits caused by back fog - Individual marking of the spray gun possible using coloured CCS clips - adam 2 compatible - suitable for retrofitting the digital air micrometer - Gun inlet pressure RP: 2.5 bar - Spray stand RP: recommended 17 cm - 21 cm - Weight: 468 gr - Air consumption: 410 Nl/min - Compressed air connection: G 1/4 male thread - Material connection: G 3/8 male thread

>> 3M Fine Finish high performance spray gun system 26978

Spray faster and achieve a finer finish with the 3M™ fine finish spray gun system. It delivers finer atomisation and faster flow than HVLP sprayers. The system uses 3M™ high performance nozzles for a fine finish to spray the most challenging coatings, perfect colour matching and provide a glass-like application of clear coats. VERSATILE: The three nozzle sizes (1.2, 1.3 and 1.4) are suitable for a range of high-performance paints, including clear coats, water-based base coats, effect paints, solvent-based paints and other modern low-VOC paints. REPLACEABLE NOZZLES: Thanks to the quickly replaceable nozzle heads, paints and coatings do not pass through the entire body of the spray gun and you get the performance of a brand new spray gun every time you replace the nozzle. INTELLIGENT CLEANING: Cleaning is very simple: all you have to do is replace the nozzle or clean it with a suitable solvent to reuse it The kit contains: 1x 3M™ high-performance paint spray gun body 1x compressed air regulator valve 1x locking ring for 3M™ high performance spray gun 1 1x 3M™ PPS™ 2.0 cup, standard (22 fl oz, 650 ml), 4x 3M™ PPS™ 2.0 lid, large/standard, 200 µm filter 1x 3M™ PPS™ 2.0 lid, large/standard, 125 µm filter 5x 3M™ PPS™ 2.0 inner cup, large/standard size 5x 3M™ flow cup nozzle heads for a fine finish 1.2 5x 3M™ flow cup nozzle heads for a fine finish 1.3 5x 3M™ flow cup nozzle heads for a fine finish 1.4 3x 3M™ PPS™ 2.0 sealing caps

>> 3M HVLP high performance spray gun for flow cups

The lightweight and easy-to-use 3M high performance spray gun was developed for modern painters. It is suitable for the application of various coatings from a pressurised source or flow cup. Thanks to its impact-resistant composite body, it is one of the lightest paint spray guns available. At the same time, it is robust enough for demanding operating conditions in the general and automotive industries. With the interchangeable quick-change nozzles, paint does not run through the entire body of the spray gun. Cleaning is very simple: all you have to do is wipe the tip of the paint needle and replace the nozzle head - there is no need to take the spray gun apart or immerse it in solvent. - Lightweight, impact-resistant housing made from high-quality composite material - Quick changeover between printing systems and the 3M™ PPS™ 2.0 paint processing system possible - Easily interchangeable nozzles in sizes 1.1 to 2.0 - Designed for comfort - fewer parts to maintain or replace thanks to the simple, innovative design - for thick film fillers, primers, top coats, water-based paint, clear coats, etc. 3M pressure conversion for high-performance spray gun 26837 (conversion pack): This easy-to-install conversion pack adds an air pressure connection to our 3M™ high performance spray gun, which is required for the 3M™ PPS™ 2.0 type H/O pressure cup. This allows you to spray high viscosity finishes with better control over texture, spray size and spray performance than aerosol cans or body protection guns.

Item name	Item number	Barcode	Single Price

>> 3M HVLP high performance spray gun for pressure cups

The lightweight and easy-to-use 3M high-performance spray gun was developed for industrial painters. It is made of an impact-resistant composite material and is one of the lightest paint spray guns in the industry. At the same time, it is robust enough for demanding conditions. The versatile design allows painting from a pressurised source or a gravity feed cup. Thanks to the interchangeable nozzles in sizes 1.1 to 1.8, you can apply various sprayable coatings. With the interchangeable quick-change nozzles, paint does not run through the entire body of the spray gun. Cleaning is very simple: all you have to do is wipe the tip of the paint needle and replace the nozzle head - the spray gun does not need to be taken apart or immersed in solvent. - Lightweight, impact-resistant housing made from high-quality composite material - Change between pressure hose and 3M™ PPS™ 2.0 paint processing system possible - Interchangeable quick-change nozzles in sizes 1.1 to 1.8 - Designed for comfort - fewer parts to maintain or replace thanks to the simple, innovative design - for textured coatings, epoxy/urethane primers, adhesives, release agents, etc.

> Filler and primer guns

>> SATAjet® 100 B F RP

Mist-reduced primer and filler guns. Lightweight and ergonomic primer gun. Available in HVLP or optimised RP high-pressure technology. Sharply defined spray jet for low paint mist development and little masking effort. Wide spray jet with nozzles specially designed for primers and fillers. Reduced sanding effort and material consumption. Fully complies with the requirements of VOC legislation. Fully water-based paint compatible thanks to stainless steel nozzles. SATAjet 100 B F RP: Highly variable spray pressure setting. - Gun inlet pressure RP: Application range 1.5 bar - 2.0 bar - RP spray stand: Recommended application range 18 cm - 23 cm - Weight with QCC upper cup: 601 gr - Air consumption: 290 Nl/min - with QCC top cup 0.6 litre plastic

>> SATA® QMR - Quick Material Regulator

This material quantity regulation enables the required material output quantity to be preset, which can be called up quickly, precisely and therefore reproducibly at the touch of a button. With the "release function", the painter can easily switch back to full material flow within seconds. For the following SATA spray guns: - SATAjet X 5500 - SATAjet 5000 B - SATAminijet 4400 B - SATAjet 1000 series - SATAjet 100 series

Item name	Item number	Barcode	Single Price	
SATA QMR - Quick Material Regulator	64082		92,30 EUR/Stk	E

>> Anest Iwata Quick Fluid Adjuster QFA

The ANEST IWATA Quick Fluid Adjuster, QFA for short, is used to quickly change a previously defined needle path and complete needle opening. This allows different material flow rates to be realised with just one nozzle setup. During the ongoing work process, the preset needle path, i.e. reduction, is fixed via the red adjustment ring. A clear symbol - half and full drop - on the red adjustment ring shows the user which position the ring must be turned to. The ANEST IWATA QFA can be fixed in place using the counter screw without it coming loose unintentionally. - Suitable for Anest Iwata LS-400 SR2

Item name	Item number	Barcode	Single Price	
Iwata Quick Fluid Adjuster QFA for LS-400 SR2	65296		99,00 EUR/Stk	R

>> 3M HVLP high-performance nozzle head for pressure cups

Exclusively for use with the 3M high performance spray gun and the 3M PPS 2.0 paint application system. No additional tools are required for the change. Cleaning is simple: just wipe the tip of the paint needle and replace the nozzle head - no need to disassemble the spray gun or immerse it in solvent. - spray performance with every new nozzle head as with a completely new device Replaceable nozzles have been specially developed for pressurised applications. The nozzle heads are attached to the pressure hose of the 3M™ high performance spray gun and securely mounted with a specially designed locking ring.

>> 3M high performance spray gun accessories

More control over the processing of high-viscosity or textured paints thanks to the pressure conversion for the 3M™ high-performance spray gun Gain more application control over viscous or textured finishes with our conversion pack for the 3M™ High Performance Paint Gun. Used in conjunction with the 3M™ PPS™ 2.0 Type H/O pressure cup, the conversion pack allows painters to spray viscous, high-viscosity finishes with better control over texture, spray size and spray performance than aerosol cans or body protection guns.

>> SATA® Adam 2™ - Digital air micrometer

Flexible digital pressure measuring device! The digital air micrometer for retrofitting all SATA spray guns - including SATAminijet. Maximum colour accuracy thanks to precise setting and display of the inlet pressure. The new design allows the display to be used on several spray guns and turns a standard spray gun into a spray gun with digital pressure measurement. Battery change by the painter. The SATA dock conversion unit opens up even more application options for the digital measurement of air pressures: In combination with the SATA adam 2 display, it replaces all analogue pressure gauges with a G 1/8 external thread, e.g. on pneumatic systems or also when digitally converting a SATA air micrometer with an analogue pressure gauge. - EX approval: I 2G Ex ia IIC T4 (KEMA 05ATEX1090X - Energy approval: RENATA CR2032 battery

>> Tornador Gun BLACK Z-20S Impulse cleaning gun

The professional cleaning gun for cars, lorries, buses, taxis and commercial vehicles, but also for industry, building cleaning, aviation and shipping. Tornador® BLACK Z-020S with new ergonomics and performance, excellent haptics and cold-insulating and low-vibration handles. The rotation set is equipped with sealed ball bearings that enable the Tornador® BLACK to work with small or mobile compressors, as the full performance potential is already available at 4.5 bar. Wear is minimised as the rotation set no longer comes into contact with the outlet funnel. With the Tornador® BLACK Z-020S, you can achieve excellent deep cleaning at a working pressure of approx. 4.5 bar. The Tornador® BLACK Z-020S can even be operated with a 240V - 2.2kW piston compressor, provided it has a delivery volume of at least 270 litres/min. This makes the Tornador® BLACK Z-020S ideal not only for stationary but also for mobile use. The reliable rotation technology of the Tornador® BLACK Z-020S not only saves time and money, but is also characterised by reduced noise emissions and fewer vibrations.

Outer tube black matt for Tornador Gun Black	60826		10,18 EUR/Stk	H

>> Airgunsa P6 spray gun

Spray gun for easy application and atomisation of thin materials such as oils, petroleum, cleaning solutions, silicone removers, etc. - Adjustable material nozzle, with 1 litre aluminium hanging cup - Air consumption 245 lt/min at 6 bar - Weight 850 grams

Item name	Item number	Barcode	Single Price	
Spray gun with 260 mm spray tube	36263		105,11 EUR/Stk	B

>> Airgunsa UBS pistol AZ PVA TN

Sturdy, robust underbody protection gun. - With suction pipe and connection for 1 litre standard screw cans - Adjustable material nozzle for setting the material quantity and spray pattern - Air consumption 322 lt/min at 6 bar - Weight 650 grams

Item name	Item number	Barcode	Single Price	
Underbody protection gun AZ PVA TN	36262		77,47 EUR/Stk	F

> Painting equipment for large surfaces

>> Mini pressure vessel set 2 lt.

Mobile paint sprayer for coating larger surfaces. Set consisting of: - Pressure pot with 2 litre capacity, with pressure regulator and carrying handle - SATAjet® 1000 K RP tank gun with nozzle set 1.1 mm - Tandem hose with combination material hose with protective cover, screw connections, length 1500 mm - Stainless steel colour filter housing with 60-mesh slotted filter - Curved stainless steel inlet pipe for easy handling

Item name	Item number	Barcode	Single Price	
AP Mini pressure vessel set 2 lt. complete	62958		1.219,96 EUR/Stk	A

>> 4233 Stainless steel airless unit

For larger coating jobs on lorries or construction vehicles. - 4.2 litre stainless steel pump with stainless steel high-pressure filter - Pressure ratio 33:1 maximum delivery rate with free flow: 4.2 l/min - Delivery rate per double stroke: 27 ccm - Material pressure: 254 bar - Very quiet operation, double vent pipe for fast pulsation-free switching - With non-return valve as standard - Closed release agent chamber, self-adjusting material packs - Suction via 6-litre upper tank - Single pressure regulator for pump pressure adjustment - Trolley with hose and gun holder - Airless gun with plug-in filter and carbide reversible nozzle with bore and spray angle of your choice - 7.5 running metres. Airless hose

Item name	Item number	Barcode	Single Price	
AP-MERIT 4233 Stainless steel airless unit	48406		2.418,32 EUR/Stk	R

>> 4233 Stainless steel airless device Air-Combi

For larger coating jobs on lorries or construction vehicles. - 4.2 litre stainless steel pump with stainless steel high-pressure filter - Pressure ratio 33:1 maximum delivery rate with free flow: 4.2 l/min - Delivery rate per double stroke: 27 ccm - Material pressure: 254 bar - Very quiet operation, double vent pipe for fast pulsation-free switching - With non-return valve as standard - Closed release agent chamber, self-adjusting material packs - Suction via 6-litre top tank - 2-way pressure regulator for pump pressure setting and atomiser air pressure setting - Trolley with hose and gun holder - Air-Combi gun with spray jet width adjustment, tightening force adjustment, atomiser pressure adjustment directly on the gun, with carbide nozzle with bore and spray angle of your choice - 7.5 running metres. Tandem hose (combined material/air hose)

Item name	Item number	Barcode	Single Price	
AP-MERIT 4233 Air-Combi version device	48408		3.016,90 EUR/Stk	R

>> Wagner ZIP52 membrane unit with SATAjet® 1000 K RP

Mobile complete system for processing large quantities of material. Pump specially treated for processing both water-thinnable and conventional materials. Due to the very fine air atomisation, top painting results can also be achieved (e.g. buses, truck chassis, etc.) - Double diaphragm pump made of conductive polypropylene diaphragm Teflon, valve seats and balls made of stainless steel - Pump fully assembled with 3 pressure regulators (pump pressure, atomiser pressure, pressure for pulsation damper) - Circulation device for cleaning and good suction - Pulsation damper and material filter for continuous material flow - 6 litre upper tank with stainless steel feed pipes - SATAjet® 1000 K RP tank gun with 1.3 mm nozzle set (or as required) - Chrome-plated trolley - Solvent-resistant material - special hoses - Pressure ratio 1:1 max. pressure input 8 bar Filter recommendation when using nozzle 1.1 (top coats): Pump filter 46883 (100 meshes, identification colour white), gun filter 30230 (100 meshes, identification colour black) Filter recommendation when using nozzle 1.3 (primers, Selemix industrial paints): Pump filter 58086 (60 meshes, identification colour black), gun filter 30231 (60 meshes, identification colour white)

Item name	Item number	Barcode	Single Price	
Wagner complete system ZIP 52 with top tank 6 lt.	47013		2.872,74 EUR/Stk	X

>> Airless unit completely electric

Independent of the compressed air network, ideal for larger coatings - Maximum working pressure 240 bar - max flow rate at 120 bar: 2.5 l/min - largest nozzle 0.21 inch - with 6 litre top tank and return hose - incl. pressure gauge, stainless steel suction valve with valve trigger - High-pressure hose NW 4 with a length of 7.5 running metres, NPS 1/4" - Airless gun incl. reversible nozzle of your choice, nozzle cleaning without tools - 240 Volt/50 Hz

Item name	Item number	Barcode	Single Price	
Complete electric airless unit	54656		2.176,79 EUR/Stk	R

> Accessories for airless devices

>> Airless spray gun RST2 black

- incl. swivel joint and material insert filter in the handle - Supplied without trade tip nozzle 2 (please order separately under WAGNER TRADE TIP 2) - Connection thread 11/16"; inlet 1/4" - up to 500 bar - Stainless steel

Item name	Item number	Barcode	Single Price	
Airless spray gun RST2 black	61793		190,30 EUR/Stk	E

>> Maspra reversible nozzle

REVERSE AND CLEAN WITHOUT TOOLS!!! Suitable for Wagner and Graco pistols. Nozzle code: First digit = jet width in degrees Second digit = nozzle size in inches

>> RosAuto spray gun washer complete for water/solvent

Fully automatic and manual version for solvent and water-based paints (4 workstations in ONE): Description of solvent device: The spray gun can be cleaned both fully automatically and manually. In the fully automatic the gun is inserted with the trigger locked and the air inlet closed (special pliers are supplied). The air cap, cup, cup lid, gun filter and stirring rod can be placed (patented storage system). After closing the lid, the timer is activated and a solid, stable diaphragm pump cleans the gun and parts from the outside and inside via several arranged nozzles with dilution for pre-cleaning. After the pre-cleaning time has elapsed, a second diaphragm pump pumps clean dilution through the same nozzles to perform the final cleaning. An additional manual washing station is also available to carry out manual cleaning work. Compressed air hose for spray gun connection for spraying thinner as well as patterns. The containers with thinner are located in a drip tray. Tight-fitting connection adapters for the thinner cans, making it impossible to mix up the inlet and outlet hoses when changing the canisters. Description of water-based paint sprayer: Recycled water is used for pre-cleaning, therefore economical. The washed parts can be blown dry using the enclosed blow-out gun be blown dry. If the water in the pre-cleaning tank is heavily soiled, splitting agent is added and the tank is agitated using a compressed air agitator. The dirty water is flocculated and the contained in it separates from the dirt. The entire tank is then drained via a filter basket. The colour sediment remains in the filter basket and the water obtained in this way can reused for cleaning. Operation with compressed air An automatic washing station for pre-cleaning the guns is also integrated. This can be put into operation at the same time as manual washing work is carried out in the front area. After opening the front cover, the pneumatic extraction system switches on automatically so that the painter is not exposed to harmful solvent vapours during washing. An optional activated carbon filter is available as an option to filter out residual solvent vapours in the extraction air. - Operation completely with compressed air, therefore EX-protected - Made entirely of stainless steel - Weight 114 kg. - Dimensions: 1190 mm width 690 mm depth 1490 mm height - Extraction connection: 150 mm, 3 metres of flexible extraction hose included - including ATEX/VEXAT certificate for ATEX zone II 2G

Item name	Item number	Barcode	Single Price	
RosAuto spray gun washing station Combi washer	59949		5.555,00 EUR/Stk	R

>> RosAuto spray gun washer fully automatic/spray nozzle

Fully automatic version for solvent-based paints: The spray gun can be cleaned fully automatically. The gun is inserted into the fully automatic machine with the trigger locked and the air inlet closed (special pliers are supplied). The air cap, cup, cup lid, gun filter and stirring rod can be placed on their own holders (patented storage system). After closing the lid, the timer is activated and a solid, stable diaphragm pump cleans the gun and parts from the outside and inside via several nozzles with dilution for pre-cleaning. After the pre-cleaning time has elapsed, a second diaphragm pump pumps clean dilution through the same nozzles to carry out the final cleaning. In addition, a special spray nozzle is available, which ejects dilution mixed with air. This enables simple, quick manual cleaning of nozzle sets and small parts. The spray nozzle is located in the washroom and is easy to reach when the lid is open. The pneumatic extraction system is automatically activated as soon as the lid is opened, vapours are extracted - Washroom made entirely of stainless steel - 2 stable diaphragm pumps, 120 mm suction connection - Operation completely with compressed air, therefore EX-protected - Weight 42 kg - Dimensions: 450 mm width 660 mm depth 1100 mm height - including ATEX/VEXAT certificate for ATEX Zone II 2G

Item name	Item number	Barcode	Single Price	
RosAuto spray gun washing station fully automatic (solvent)	60038		2.428,87 EUR/Stk	R

>> RosAuto spray gun washer fully automatic/manual

Fully automatic and manual version for solvent-based paints: The spray gun can be cleaned both fully automatically and manually. In the fully automatic version, the gun is inserted with the trigger locked and the air inlet closed (special pliers are supplied). The air cap, cup, cup lid, gun filter and stirring rod can be placed on their own holders (patented storage system). After closing the lid, the timer is activated and a solid, stable diaphragm pump cleans the gun and parts from the outside and inside via several nozzles with dilution for pre-cleaning. After the pre-cleaning time has elapsed, a second diaphragm pump pumps clean dilution through the same nozzles to carry out the final cleaning. An additional manual washing station is also available to carry out manual cleaning work as already described for model 59584. Compressed air hose for spray gun connection for free spraying of thinner as well as sample spraying After opening the front cover, the pneumatic extraction system switches on automatically so that the painter is not exposed to harmful solvent vapours during washing. Operation completely with compressed air, therefore EX-protected. An activated carbon filter is available as an option to filter out residual solvent vapours in the extraction air. The containers with thinner are located in a drip tray. Tight-fitting connection adapters for the thinner cans, making it impossible to mix up the inlet and outlet hoses when changing the canisters - Made entirely of stainless steel - Operated entirely with compressed air, therefore EX-protected - Weight 67 kg - Dimensions: 690 mm width 690 mm depth 1490 mm height - Suction connection: 120 mm, 3 metres of flexible suction hose included - including ATEX/VEXAT certificate for ATEX Zone II 2G

RosAuto spray gun washing station Combi washer (solvent)	59674		3.766,12 EUR/Stk	R

>> RosAuto spray gun washer for water-based paints

Manual version for water-based paints: Recycled water is used for pre-cleaning, therefore economical. The washed parts can be blown dry using the enclosed blow-out gun If the water in the pre-cleaning tank is heavily soiled, splitting agent is added and the tank is agitated using a compressed air agitator. The dirty water is flocculated and the contained in it separates from the dirt. The entire tank is then drained via a filter basket. The colour sediment remains in the filter basket and the water obtained in this way can be reused for cleaning. reused for cleaning. Unit has the same dimensions as type 59584 or 59585 and can therefore be placed next to each other as a 2-piece unit. - Operation with compressed air - Weight 40 kg, made entirely of stainless steel - Dimensions: 495 mm width 690 mm depth 1520 mm height - including ATEX/VEXAT certificate for ATEX zone II 2G

Item name	Item number	Barcode	Single Price	
RosAuto spray gun washing station manual/water	59664		1.934,43 EUR/Stk	R

>> RosAuto spray gun washer for solvent-based paints

Manual version for solvent-based paints: Washing unit for spray gun cleaning. With 2 pumps and integrated extraction of solvent vapours. One circuit is used for pre-cleaning, a second for final cleaning of the spray gun. The 2nd circuit uses clean dilution, which is fed into the first circuit. This means that the dilution for pre-cleaning is always enriched with a little fresh dilution. When the front cover is opened, the extraction system switches on automatically so that the painter is not exposed to harmful solvent vapours during washing. Small sample sheets can also be sprayed. Operation completely with compressed air, therefore EX-protected. Device has the same dimensions as type 59664 and can therefore be placed next to each other as a 2-piece unit. Premium version contains an additional pump. This pump is used to supply an internally fed cleaning brush - Operation with compressed air - Weight 40 kg, made of stainless steel - Dimensions: 495 mm width 690 mm depth 1520 mm height - Suction connection: 120 mm - Connection pressure 6 bar - including ATEX/VEXAT certificate for ATEX zone II 2G

Item name	Item number	Barcode	Single Price

RVS waste bin 250 lt. self-closing	59004		945,00 EUR/Stk	W

>> HC Disposal centre manual high

Disposal stations for both water-based and conventional paint systems. Place the paint cans with residual paint in the cleaning station, close the lid and the paint residues run into the collection containers below. Hazardous vapours are extracted via the extraction connection and pipes. It is the best solution for safely draining paint residue from cans or cups. In accordance with environmental regulations and laws. Dimensions: 124 x 90 x 60 (L x W x H) Required extraction volume: 100 m3/h Weight: 50 kg Suction connection: Ø 80 mm - Made entirely of stainless steel

Item name	Item number	Barcode	Single Price	
HC waste disposal centre manual high 128 x 90 x 61 cm	58602		4.983,33 EUR/Stk	F

>> RosAuto work and networking table

The ideal workstation for the painter to carry out mixing and cross-linking work. The very spacious table has a large work surface and a draining facility for emptying of containers as well as a discharge opening into a waste bin. There are also 2 pumps for cleaning and thinner liquids are integrated. This means that, for example: the most commonly required thinner conveniently via a tap to set the desired spray viscosity be conveyed. The integrated pneumatic extraction system also ensures that the painter is not exposed to harmful vapours during mixing. The table is made entirely of stainless steel, which allows for easy and clean cleaning. As a further option, a small pneumatic press is also available, which allows drained empty containers up to a maximum of 5 litres contents and dispose of them in a space-saving manner. - Weight 62 kk. - Dimensions: 1100 mm width 690 mm depth 1500 mm height - Suction connection: 150 mm, 3 metres of flexible suction hose included - including ATEX/VEXAT certificate for ATEX Zone II 2GT5

> Distiller for solvents

>> RosAuto distiller for dilutions

Explosion-proof, 12 lt. The explosion-proof distiller is suitable for processing used solvent from the spray gun washer. The distillation cycle is completely automatic. The distiller is based on the simple distillation principle at atmospheric pressure and separates the dirt particles from the solvent. The treated solvent can then be reused. The distillation residue remains in the filter bag of the cooker and can be easily removed after distillation is complete. The solvent is brought to the boil in a double-walled boiler in which diathermic oil is circulated and heated by electric heating coils. The vapours produced are then fed into an air-cooled condenser where they liquefy again. Before installation and commissioning, it is recommended that an application be submitted to the relevant district authority. When distilling solvents, it is essential to ensure correct and properly implemented explosion protection. - Weight: 78 kg - Dimensions: 510 mm x 720 mm x 1380 mm - Capacity: 12 litres 1000 watts/220 volts - Max. temperature 200 degrees, 3-4 hours/working cycle - including ATEX/VEXAT certificate for ATEX Zone II 2GT5

> Painting stands and more

>> BT10 bumper painting stand (Bumper Thing)

Top quality for a long service life! The perfectly shaped paint stand holds bumpers in place during repairing, filling, sanding, painting and drying. The open design also provides access to the back of the bumper grille for painting. A lever on the painting stand allows the painter to turn the car parts safely and easily with just one hand. This allows you to stand upright and paint at a comfortable working height. Thanks to its four swivelling castor feet, the painting stand can be easily pushed into the spray booth and positioned there. Turn the parts into the best light and paint directly next to the other painted parts. The 1¾" (45 mm) wide wheels cannot fall into the spray booth grating. When the painting stand is not in use, it can be pushed into the others to save floor space. The moulded design ensures that the air hoses slide down without getting jammed. Together with our wire spools and wire cutters, parts can be attached to the painting stand quickly and easily. - Dimensions: 61 cm wide x 10 cm deep x 96 cm high - Weight: 23.13 kg - Disassembled in cardboard box

Item name	Item number	Barcode	Single Price	
BT10 bumper painting stand (Bumper Thing)	53443		488,00 EUR/Stk	W

>> Small parts painting stand WT10 (Wing Thing)

Top quality for a long service life! The perfectly shaped paint stand holds mudguards and other small parts firmly screwed or wired to the two perforated brackets during repair, filling, sanding, painting and drying. The open design ensures that the spray jet can easily reach all corners or inner wheel arches. A lever on the painting stand allows the painter to turn the car parts safely and easily with just one hand. This allows you to stand upright and paint at a comfortable working height. A swivel clutch on the painting stand allows the tension to be adjusted accordingly, allowing parts of different weights to be positioned. Thanks to its four swivelling roller feet, the painting stand can be easily pushed into the spray booth and positioned there. Turn the parts into the best light and paint directly next to the other painted parts. The 1¾" (45 mm) wide wheels cannot fall into the spray booth grating. When the painting stand is not in use, it can be pushed into the others to save floor space. The moulded design ensures that the air hoses slide down without getting jammed. Together with our wire spools and wire cutters, parts can be attached to the painting stand quickly and easily. - Dimensions: 43 cm wide x 11 cm deep x 94 cm high - Weight: 14.06 kg - Disassembled in cardboard box

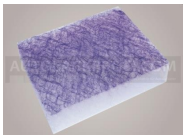
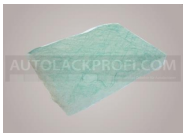
>> Hydropaint Collector paint mist separator mat



The HydroPaint Collector is a filter medium that has been specially developed for the filtration of water-based paint particles. Extremely fine, very elastic and progressively structured glass fibres guarantee a high degree of separation with a low pressure loss. The storage capacity of these fine and dry particles is further increased by a harmless binder that impregnates the filter medium. - Effective separation of paint and varnish mist - Colour: violet/white - Paint mist separation efficiency approx. 98.5% - Inflow velocity 3.75 m/s - Thickness 75 mm / 3"

Item name	Item number	Barcode	Single Price	
Hydropaint mat violet especially for water-based paints	51702		5,38 EUR/m2	E

>> FC Paint Stop paint mist separator mat



For use in the exhaust air of spray booths. The Paint Stop mats are made from a non-flammable, progressively structured glass fibre fabric. They have a high paint and paint mist storage capacity throughout the entire depth of the mat. Thanks to its long service life, the Paint Stop makes a significant contribution to reducing costs. - Effective separation of paint and lacquer mist - Colour: green/white - Paint mist separation efficiency approx. 95% - Nominal volume flow 2500 m3/h x m2 - Incoming air velocity 0.7 m/s - Dust holding capacity approx. 4000 g/m2

>> FC 600 fine filter Filter class EU 5/F 5

with mesh fabric High-performance filter made of elastic, unbreakable polyester fibres. The filter has a progressive structure, i.e. the fibre layers with different fibre diameters are arranged one behind the other in such a way that the density increases towards the clean air side. This optimises the defined filter performance and dust holding capacity. The result is a significantly longer service life of the filter. - Fire behaviour: in accordance with DIN 53438 Fire class F1 self-extinguishing - Weight 520 g/m2 Average separation efficiency 99% - Nominal flow velocity: 0.25 m/s - Dust holding capacity 250 g/m2 - Fibres of the filter made adhesive with a special process - Resistant to solvent vapours and absolutely silicone-free - Thickness approx. 22 mm, colour white - Moisture resistance up to 100% relative humidity - Temperature resistance up to 100 degrees, briefly up to 120 degrees - Fine filter mat for insertion in the supply air filter ceiling - Filter class EU 5 according to DIN 24185 or G 5 according to EN 779 - Cut-to-size price per m2

>> Connection nipple steel Euro with 1/4"

- Steel version - with external or internal thread

Item name	Item number	Barcode	Single Price	
Steel nipple with 1/4" external thread	57115		1,78 EUR/Stk	F
Steel nipple with 1/4" internal thread	57114		1,84 EUR/Stk	F

>> Connection nipple Euro with male thread

- Brass version - with external thread

Item name	Item number	Barcode	Single Price	
Connection nipple Euro 1/4"	11871		1,94 EUR/Stk	H
Connection nipple Euro 3/8"	11872		2,38 EUR/Stk	H

>> Steel one-hand coupling with hose connection

- Steel version - Coupling with hose connection 9 mm

Item name	Item number	Barcode	Single Price	
One-hand coupling STAHL NW 7 with hose connection LW 9	57734		27,48 EUR/Stk	H

>> Connection nipple/coupling Atlas Copco

- Nickel-plated brass version - with internal thread

Item name	Item number	Barcode	Single Price	
Coupling 1/4" with internal thread (Atlas type)	12694		20,57 EUR/Stk	E
Plug nipple 1/4" with internal thread (Atlas type)	12697		5,07 EUR/Stk	E

>> Swivel joint connection nipple Euro with female thread

- Standard connection nipple, like 11873, but - Can be rotated and tilted for optimum gun handling
- Also as a replacement for swivel joint

Item name	Item number	Barcode	Single Price	
Swivel joint super flexible with thread 1/4" female thread	40572		24,53 EUR/Stk	H

>> Connection nipple Euro with female thread

- Brass version - with internal thread - for spray guns and pneumatic tools

Item name	Item number	Barcode	Single Price	
Plug nipple NW 7 with 1/4" internal thread	11873		1,94 EUR/Stk	H
Plug nipple NW 7 with 3/8" internal thread	11874		2,44 EUR/Stk	H

> Compressed air hoses-filter units-regulators etc.

>> Compressed air hose green

Particularly supple, abrasion-resistant, flexible compressed air hose for pneumatic tools, spray guns and paint spray guns. The particularly soft outer layer prevents scratching of painted surfaces. Approx. 2/3 lighter in weight than conventional rubber and PVC hoses. - Special mixture of PU and thermoplastic - Green colour, with metre markings - Maximum operating pressure of 20 bar - Operating temperature -15 C to +60 C - Original roll 60 running metres with 8 mm ID - Original roll 50 running metres with 10mm ID The complete hoses are supplied with couplings and nipples already fitted, in total lengths of 10 running metres. Any other hose lengths are available on customer request!!!

Item name	Item number	Barcode	Single Price	
Compressed air hose green 8 ID/12AD complete 10 running metres.	45252		62,47 EUR/Stk	E
Compressed air hose green 10 ID/15AD complete 10 running metres.	45251		76,47 EUR/Stk	E
Compressed air hose green NW 8/12 per metre.	12238		4,56 EUR/lfm.	A
Compressed air hose green NW 10 per metre.	45249		6,38 EUR/lfm.	A

>> SUPERFLEX professional compressed air hose

With special new coupling for quick uncoupling of the hose (de-aeration function at the touch of a button) = easy one-handed operation!!! Compressed air hose for universal use in the workshop for all compressed air applications - Very flexible and pliable - Completely antistatic - Maximum operating pressure of 20 bar The complete hoses are supplied with couplings and nipples already fitted, in total lengths of 10 linear metres, 12 linear metres or 15 linear metres Any other hose lengths are available on customer request!!!

Item name	Item number	Barcode	Single Price	
Professional SUPERFLEX air hose 9x3.5 mm x 10 running metres.	58840		108,80 EUR/Stk	F
Professional SUPERFLEX air hose 9x3.5 mm x 12 running metres.	61624		121,00 EUR/Stk	F
Professional SUPERFLEX air hose 9x3.5 mm x 15 running metres.	61625		139,00 EUR/Stk	F
Professional SUPERFLEX air hose 9x3.5 mm x 20 running metres.	65157		169,00 EUR/Stk	F
SUPERFLEX 9 mm ID professional air hose	52199		6,12 EUR/lfm.	F

>> Compressed air hose blue with fabric insert

For normal operating conditions with compressed air, universally applicable in the workshop or paint shop. - Maximum operating pressure of 15 bar at 20°C - Original roll 50 running metres with 6 mm ID / 11 mm OD - Original roll 50 running metres with 9 mm ID / 15 mm OD

Item name	Item number	Barcode	Single Price	
Compressed air hose blue 6 mm ID	12496		1,01 EUR/lfm.	F
Compressed air hose blue 9 mm ID	12497		1,49 EUR/lfm.	R

>> SATA® compressed air hose

High-quality, flexible and wear-resistant painting air hose - Silicone-free - Antistatic - Maximum operating pressure of 20 bar The complete hoses are supplied with couplings and nipples already fitted, in total lengths of 10 running metres. Any other hose lengths are available on customer request!!!

Item name	Item number	Barcode	Single Price	
SATA® compressed air hose NW 9 complete with 10 running metres.	45250		185,97 EUR/Stk	F

>> Material hose

- Material hose for pressurised boilers and low-pressure conveying systems (e.g. double diaphragm pumps) - Soft outer skin, flexible - with polyamide inner core, therefore also suitable for aggressive and solvent-containing materials

Item name	Item number	Barcode	Single Price	
Material hose 1/4" (6.35 mm) Price per running metre.	10224		24,53 EUR/lfm.	A
Material hose 3/8" (9.5 mm) Price per running metre.	37468		19,33 EUR/lfm.	A

>> Complete hose package

For diaphragm pumps and pressure vessels. Package consists of: - Material hose black, NW 6 with solvent-resistant inner core, pressure-resistant up to 34 bar - Compressed air hose green, NW 8 ID very exible max. 12 bar - Air connections G 1/4" on both sides with longer ends for self-attachment and adjustment by the user - Material connection 3/8" gun, 1/4" pump with compression sleeves - Fabric protection hose 24-36 mm - Ends with heat-shrink tubing, are additionally secured with internal adhesive

Item name	Item number	Barcode	Single Price	
Hose package 10 running metres complete	58045		303,28 EUR/Stk	A
Hose package 16 running metres complete	57927		442,52 EUR/Stk	A
Hose package 20 running metres complete	58023		529,32 EUR/Stk	A
Hose package 22 running metres complete	57925		572,72 EUR/Stk	A

>> Compressed air regulator

Compressed air regulator with high reliability, very heavy-duty piston regulator design. - Stable set pressure with pressure fluctuations in the inlet - Can be readjusted - Wall mounting directly via lock nut or by means of wall mounting - Metal housing - Adjustment knob lockable, removable to prevent unintentional adjustment - Flow direction can be changed, just replace pressure gauge and blanking plug - With pressure gauge - Pressure range 0-12 bar Pressure regulator 1/4" with pressure gauge Flow rate max at 6 bar: 200 Nl/min Pressure regulator 1/2" with pressure gauge Flow rate max at 6 bar: 1100 Nl/min

Item name	Item number	Barcode	Single Price	
AP pressure regulator 1/4" with pressure gauge	28191		46,34 EUR/Set	H
Pressure regulator 1/2"	28192		59,88 EUR/Set	H

>> Filter regulator

Filter regulator with high reliability. Filters the air of impurities - Stable set pressure with pressure fluctuations in the inlet - Can be readjusted - Wall mounting directly via lock nut or by means of wall mounting - Metal housing and metal container with 360 degree viewing window, semi-automatic emptying - Filter fineness 0.004 mm - Adjustment knob can be locked, removable to prevent unintentional adjustment - Flow direction can be changed, just replace pressure gauge and blind plug - With pressure gauge - Pressure range 0-12 bar Pressure regulator 1/4" with pressure gauge Flow rate max at 6 bar: 260 Nl/min Pressure regulator 1/2" with pressure gauge Flow rate max at 6 bar: 1000 Nl/min

Item name	Item number	Barcode	Single Price	
Filter regulator 1/4" with pressure gauge	28195		61,74 EUR/Set	H
Filter regulator 1/2" with pressure gauge	28196		81,20 EUR/Set	H

>> Filter water separator

Filter in heavy-duty design. Filters air from impurities - Metal housing and metal container with 360 degree viewing window, Semi-automatic emptying - Filter fineness 0.004 mm

Item name	Item number	Barcode	Single Price	
Filter water separator 1/4"	28188		31,31 EUR/Stk	F
Filter water separator 1/2"	28189		51,31 EUR/Stk	F

>> Mist lubricator

Stable lubricator. To supply lubricated compressed air for pneumatic tools, for example. - Metal oil reservoir with 360 degree viewing window - Oil supply proportional to the flow rate - is also supplied at low flow rates - Oil quantity infinitely adjustable via adjusting screw Mist lubricator 1/4" max. flow rate at 6 bar: 700 Nl/min Mist lubricator 1/2" max. flow rate at 6 bar: 3000 NL/min

Item name	Item number	Barcode	Single Price	
Mist lubricator 1/4"	28193		42,63 EUR/Stk	F
Mist lubricator 1/2"	28194		50,68 EUR/Stk	F

>> Accessories for controller units

Item name	Item number	Barcode	Single Price	
Mounting bracket for 1/2" devices	28200		4,43 EUR/Stk	F
Mounting bracket for 1/4" devices	28199		3,95 EUR/Stk	F
Plastic pressure gauge 0-10 bar; 1/8" rear; 40 mm dm	11105		14,74 EUR/Stk	H
Plastic pressure gauge 0-10 bar; 1/8" rear; 50 mm dm	11106		10,18 EUR/Stk	H

>> SATA® Filter 100 Prep

The 2-stage SATA filter 100 prep is a combination of oil/water separator and downstream fine filter specially designed for air treatment at the preparatory workstation when using primers, fillers and primers containing solvents. Condensate, oil droplets and dust particles are reliably separated - The finest dirt particles and paint-disturbing substances are separated down to a size of 0.1 microns - The first filter stage with large cyclone separator and sintered bronze filter reliably removes oil droplets, condensate and suspended particles from the compressed air - The second filter stage, the microfibre fine filter, separates fine particles down to a size of 0.1 micron - Fibre-bonded activated carbon (3rd stage) for maximum safety when processing aqueous media - Automatic condensate drain of the 1st filter stage minimises service costs and increases operational safety - Pressure control valve with pressure gauge for precise regulation of the outlet pressure - Extremely simple installation - Robust and low-maintenance - Small investment for a big improvement in quality - Ideal for the preparation room with temperatures < 50 °C - Air flow rate 800 NL/min - Air inlet 1/2" - One outlet via tap with 1/4" Replacement filter: 1x sintered filter no.: 46950 / 1x fine filter no.: 46101

Item name	Item number	Barcode	Single Price	
SATA® filter 100 prep 2-stage	52455		785,00 EUR/Stk	A

>> SATA® combi fine filter activated carbon unit 0/584

Series 500 the NEW FILTER SYSTEM FROM SATA Clean compressed air for perfect painting results! New filter technology (flow-optimised cyclone separator) reduces the pressure loss in the system and significantly increases the separation efficiency of the particles Area of application: Solvent-based paints, water-based paints and respirator supply. 3-fold filter unit 1/2" complete consisting of: - Sintered pre-filter with filter insert - Fine filter (with new bayonet lock) - Activated charcoal filter (with new bayonet catch) - incl. Sata filter timer with 6-month runtime (same expiry date for all filters!) - Wall bracket - Automatic condensate drain in the sinter filter - Max outlet operating pressure 15.0 bar - Air flow rate at 6 bar: 3800 NL/min - Solid aluminium design with glass pressure gauges - Outlet module 2-fold with stopcock and 2 x G 1/4" AG

Item name	Item number	Barcode	Single Price	
SATA® combi fine filter activated carbon unit 0/584	62407		1.893,00 EUR/Stk	Q

>> SATA® combination fine filter unit 0/544

Series 500 the NEW FILTER SYSTEM FROM SATA Clean compressed air for perfect painting results! New filter technology (flow-optimised cyclone separator) reduces the pressure loss in the system and significantly increases the separation efficiency of the particles Area of application: Solvent-based paints and water-based paints 2-fold filter unit 1/2" complete consisting of: - Sintered pre-filter - Fine filter (with new bayonet lock) - Pressure regulator with pressure gauge - incl. Sata filter timer with 6-month runtime (same expiry date for all filters!) - Wall bracket - Automatic condensate drain in the sinter filter - Max outlet operating pressure 15.0 bar - Air flow rate at 6 bar: 3800 NL/min - Solid aluminium design with glass pressure gauge - Outlet module (2 x 1/4" external thread)

Item name	Item number	Barcode	Single Price	
SATA® combination fine filter unit 0/544	62406		1.375,00 EUR/Stk	Q

>> SATA® activated charcoal filter 0/564

Series 500 the NEW FILTER SYSTEM FROM SATA New filter technology (flow-optimised cyclone separator) reduces the pressure loss in the system and significantly increases the degree of particle separation For retrofitting SATA filter unit 0/544 for use with respiratory protection devices. Absorbs oil vapours from the compressed air. - Activated carbon filter (with new bayonet lock) - Filter timer (same expiry date for all filters) - Without outlet module, regulator and manometre

Item name	Item number	Barcode	Single Price	
SATA® activated charcoal filter 0/564	62855		909,00 EUR/Stk	Q

>> SATA® Filter Cover transparent

To cover two- and three-stage SATA filter series. 58007 is used for SATA series 100 or 400 62472 is used for SATA series 500 - 4 pieces per pack

Item name	Item number	Barcode	Single Price	
SATA filter cover for 100 and 400 series	58007		68,89 EUR/Pkg	E
SATA filter cover for 500 series	62472		84,86 EUR/Pkg	E

>> SATA® spare parts for filter units

The most common wear and consumable parts for Sata filter units.

Item name	Item number	Barcode	Single Price	
SATA sintered filter for SATA series 100, 200, 300 and 400	46950		62,67 EUR/Stk	E

SATA diaphragm for SATA 500 series	62856		143,70 EUR/Stk	E
SATA Automatic condensate drain valve	47396		90,70 EUR/Stk	E
SATA pressure gauge 0-15 bar for SATA 500 series	62409		42,50 EUR/Stk	E
SATA diaphragm 2 mm for SATA 400 series	48991		44,40 EUR/Stk	E
SATA pressure gauge 0-10 bar for Sata series 100 and 400	50121		38,20 EUR/Stk	E
SATA cyclone separator for SATA 500 series	62883		87,10 EUR/Stk	E
SATA drain body for SATA series 100, 400 and 500	54321		20,70 EUR/Stk	E
SATA cyclone separator for SATA 100 and 400 series	46063		77,30 EUR/Stk	E

>> SATA® complete filter sets for 400 series filter units

Filters from these sets can be used as follows: Sintered filter for series 100, 400 and 500 Fine filter for 400 series Activated charcoal filter for 400 series

Item name	Item number	Barcode	Single Price	
SATA 2-piece filter set (sintered and fine filter)	53015		211,00 EUR/Stk	E
SATA 3-piece filter set (sintered, fine and activated carbon filter)	53016		372,10 EUR/Set	E
SATA 2-piece service set (fine and activated charcoal filter)	49773		350,78 EUR/Stk	E

>> SATA® complete filter sets for 500 series filter units

Filters from this set can be used for the SATA 500 series filter units, e.g. SATA 0/584: SATA 0/584. Set consists of: 1x fine filter cartridge 1x activated carbon cartridge

Item name	Item number	Barcode	Single Price	
SATA 2-piece service set (fine and activated charcoal filter) 500 series	62473		462,44 EUR/Stk	E

>> Prevost compressed air reel 12 linear metres

Compressed air hose with 12 linear metres and 10 mm inner diameter for high air flow during painting - Closed design, made of highly robust composite material (aluminium) - Optional wall or ceiling mounting possible - Wall bracket can be swivelled - Drum locking mechanism - max 12 bar pressure, including 1 running metre of connection hose

Item name	Item number	Barcode	Single Price	
Prevost hose reel with 12 m hose	58406		232,00 EUR/Stk	R

> Pneumatic tools Accessories and aids

>> Loctite blue 243 screw and thread locking compound

For sealing screw connections that may need to be loosened at a later date. - e.g. to seal connection nipples on spray guns

Item name	Item number	Barcode	Single Price	
Loctite 243 (5 ml.tube) medium strength	30492		9,10 EUR/Geb.	H
Loctite 243 (50 ml.tube) medium strength	30493		60,70 EUR/Geb.	H

>> Teflon tape

For sealing threads on screw connections, nipples, etc.

Item name	Item number	Barcode	Single Price	
Teflon tape, roll	11951		0,91 EUR/Stk	B

> Festool IAS compressed air system including accessories

>> Festool IAS 2 conversion module

Turns a CT suction cup into an LE device. - Simple conversion

Item name	Item number	Barcode	Single Price	
Festool compressed air module DLM-CT 26/36 with instructions	51898		283,34 EUR/Stk	F

>> Festool IAS-3 hose SD

The new IAS 3 - SD hose combines one function in itself: - Compressed air supply For use with machines without extraction (e.g. finishing, wet sanding) - Diffuse, gentle external exhaust air flow - Ideal for LEX 3 77 mm for finishing Festool IAS 3 - SD capsule is required to connect the hose to the sander.

Item name	Item number	Barcode	Single Price	
Festool compressed air hose D 12.4 x 5 m grey	54919		62,16 EUR/Stk	F
Festool IAS 3-SD capsule	54918		94,60 EUR/Stk	F

>> Festool IAS-3 Hose 2 in 1 - Light

The new IAS 3 hose combines two functions in one: - Compressed air supply - Dust extraction Suction and compressed air in one hose!!! - for oil-free motors (LEX 3) - Diffuse, gentle external exhaust air flow -> reduction of hose Ø -> more manageable and flexible - antistatic NOTE: Additional IAS 2 adapter not required! All hoses are compatible with LEX 2/LRS interface (IAS 2)!

Item name	Item number	Barcode	Single Price	
Festool IAS-3 hose 3500 (3.5 running metres) Light 2in1	54913		290,73 EUR/Stk	F
Festool IAS-3 hose 5000 (5 running metres) Light 2in1	54914		342,67 EUR/Stk	F
Festool IAS-3 hose 7000 (7 running metres) Light 2in1	54915		417,12 EUR/Stk	F
Festool IAS-3 hose 10000 (10 running metres) Light 2in1	54916		645,37 EUR/Stk	F

>> Festool IAS-3 Hose 3 in 1 - Standard

The new IAS 3 hose combines three functions: - Compressed air supply - Exhaust air - Dust extraction All in one hose!!! - for oiled engines (LEX 2, LRS, LEX 3 with oiled engine) - No oil on the surface, no cold exhaust air on the lower arm - Antistatic NOTE: Additional IAS 2 adapter not required! All hoses are compatible with LEX 2/LRS interface (IAS 2)!

Item name	Item number	Barcode	Single Price	
Festool IAS-3 hose 3500 (3.5 running metres) Standard 3in1	54908		332,18 EUR/Stk	F
Festool IAS-3 hose 5000 (5 running metres) Standard 3in1	54909		392,82 EUR/Stk	F
Festool IAS-3 hose 7000 (7 running metres) Standard 3in1	54910		506,90 EUR/Stk	F
Festool IAS-3 hose 10000 (10 running metres) Standard 3in1	54911		589,17 EUR/Stk	F

>> Festool pneumatic skidder LRS 400

- Perfect surface sanding of large, flat or levelled surfaces during rough and intermediate sanding - More economical thanks to new, extra-long and wide sanding pad - Health-friendly working thanks to vibration minimisation and VS balancing - Long service life thanks to optimised rotor and discs - Operating pressure (flow pressure) 6 bar - Grinding stroke 4 mm - Working strokes 14000 rpm - Air consumption at nominal load 390 l/min - Sanding pad 80 x 400 mm - Weight 2.6 kg

Item name	Item number	Barcode	Single Price	
Festool LRS 400 compressed air slide 80 x 400 mm	46139		808,22 EUR/Stk	W
Festool sanding pad Stickfix 80 x 400 mm	46232		87,60 EUR/Stk	F

>> Festool random orbital sander 77 mm LEX 3 - starter set

Ideal starter set for sanding without extraction: Set contains: - 1 pc. Festool random orbital sander LEX3 - 77 mm dm - 1 pc. Festool Stickfix sanding disc soft 77 mm dm - 1 pc. Festool IAS-SD capsule (for connecting the sander to the compressed air hose) - 1 pc. Festool compressed air hose 12.4 mm x 5 running metres. - 1 pc. Festool interface pad 77 mm dm - 1 pc. Festool Systainer SYS2 T-LOC - incl. operating tool

Item name	Item number	Barcode	Single Price	
Festool LEX 3 - 77 mm dm pneumatic random orbit sander - starter set	54902		585,09 EUR/Stk	W

>> Festool random orbital sander 77 mm LEX 3

Small, handy eccentric sander, ideal for smaller sanding jobs. - For finish sanding (wet sanding, blending zone) - Sanding on and off transitions for spot repairs and blending small areas - Sanding hard-to-reach areas (e.g. bumpers, wheel arches), beading and edges - Removal of paint defects and paint runs - Operating pressure (flow pressure): 6 bar - Sanding stroke 2.5 mm - Idle speed: 10500 rpm - Air consumption nominal load: 270 lt./min. - Weight: 1 kg / overall height 96 mm - incl. 1 StickFix sanding disc 77 mm dm soft, operating tool, in box

Item name	Item number	Barcode	Single Price	
Festool LEX 3 - 77 mm dm pneumatic random orbit sander	54901		508,71 EUR/Stk	W
Festool sanding disc Stickfix 77 mm dm soft	54906		39,87 EUR/Stk	F

>> Festool random orbital sander 150 mm LEX 3

The revolutionary compressed air solution!!! - Saves time = low maintenance, quick hose change - Saves money = less energy costs - Increases efficiency = perfect work results, no reworking - Protects health = perfect suction, low vibration, low noise The new LEX 3 generation has a 20% lower overall height, is over 23% lighter and uses up to 30% less compressed air than the previous LEX 2 sander - Oil-free motor: low-maintenance and robust - Optimised speed regulation - Disc brake for a clean sanding pattern - Double-sealed bearings on the motor and eccentric - Operating pressure (flow pressure): 6 bar - Sanding stroke 3 mm or 5 mm - Idle speed: 10000 rpm - Air consumption nominal load: 290 lt./min. - Weight: 1 kg. - incl. 1 pc. FUSION-TEC* sanding disc 150 mm dm soft or super soft, operating tool, in box * New sanding disc for LEX 3 - lower height = better feel for the surface. With MULTI-JETSTREAM (16-hole)

Item name	Item number	Barcode	Single Price	
Festool LEX 3 pneumatic random orbit sander - 3 mm stroke	54899		734,66 EUR/Stk	W

>> Mirka DEROS II eccentric sander-electric 77 mm dm NEW

The next generation of the Mirka® DEROS II continues the success story of the eccentric sander with numerous improvements for the user. The operating comfort reaches the highest standards, as the durable electric and brushless motor of the new DEROS II now offers up to 20 % more sanding power. This enables it to effortlessly tackle demanding tasks and heavy-duty applications. The lightweight Mirka DEROS II also impresses with its low noise level, low vibration values and unique symmetrical design. This ensures that this tool can be used for long periods of time without fatigue. DEROS II - More power / longer service life / even more user-friendly - 77 mm dm - Weight: 0.8 kg - Speed 4000-10000 rpm - Power: 300 W - 2.5 mm or 5 mm stroke - in cardboard box

SATA TrueSun daylight lamp	58797		846,00 EUR/Stk	X

>> Scangrip SunMatch 4 LED hand lamp

Compact rechargeable LED work light with colour temperature SCAN function for vehicle preparation and colour matching! SUNMATCH 4 is a compact and handy rechargeable LED work light that is always to hand for preparation and colour matching. Compared to its predecessor model, the SUNMATCH 4 has a unique, stepless CCT SCAN function. When the CCT SCAN function is activated, the hand lamp automatically scans the surface of the object with the entire colour temperature spectrum in the range from 2500K to 6500K. The CCT SCAN function can be locked at any time, allowing you to adapt the light to the inspection task at hand. This provides ideal conditions for precise colour matching and the detection of paint defects. SUNMATCH 4 also has an infinitely variable dimming function from 10 % to 100 %. The luminaire is equipped with a spotlight on the top for inspection tasks. SUNMATCH 4 is always ready for use and easy to find when it is placed back in the charging cradle after the work task. Place the LED work light anywhere during inspection tasks using the robust, swivelling hook or the strong built-in magnet. The flexible lamp head can be swivelled up to 180°. With its robust construction, SUNMATCH 4 is both dustproof and waterproof (IP65). The glass lens is resistant to solvents and a battery indicator on the front shows when the battery needs to be recharged. To protect the hand lamp from overheating, the intelligent thermal protection system reduces the power to 50% after three minutes of continuous operation at full light output. Including 1 x SCANGRIP DIFFUSER SMALL. The diffuser provides a soft, diffused light without strong contrasts between light and shadow. In addition, glare and reflections are reduced. The diffuser is simply mounted on the lens. - with CCT SCAN function for scanning the entire colour temperature range from 2500K to 6500K - Compact and flexible design - Battery indicator on the front - Robust and waterproof, IP65 - Includes a small diffuser for soft, diffused light - Dimensions: 58 x 188 x 26 mm - Weight: 0.27 kg - Light source: Sunpu-Opto LED - Operating time with max. lumen (hours): max. 2 hours - Power supply: 3.7 V / 2600mAh / Li-Ion - Mains voltage: charger 100-240V AC/50-60Hz - Charging station included

Item name	Item number	Barcode	Single Price	
Scangrip SunMatch 4 COLOURMATCH LED rechargeable hand lamp	63528		139,90 EUR/Stk	F

>> Scangrip I-Match 3 headlamp with rechargeable battery

Superior headlamp with rechargeable battery for any preparation task Thanks to state-of-the-art COB LED technology and optimised light diffusion, the I-MATCH 3 headlamp with rechargeable battery provides extremely bright and uniform illumination of the entire field of vision Compared to the previous model, the new I-MATCH 3 has the ALL DAYLIGHT function, which offers five different colour temperatures depending on the type of work to be carried out. It is also equipped with a stepless dimming function that allows you to easily adjust the light output from 10 % to 100 %. Upgraded from 160 lumens to 250 lumens, it is the ultimate tool that provides hands-free lighting for any preparation or colour matching task. In sensor mode, the lamp can be easily switched on/off with just a hand movement in front of the lamp - even when wearing thick gloves. The I-MATCH 3 headlamp is equipped with the very latest rechargeable battery technology and the SCANGRIP POWER BANK 03.5782 can be used as an optional accessory to increase the operating time. Simply attach the power bank to the headband using the flexible clamp holder and connect the cable to the headlamp. The robust and slim I-MATCH 3 is not only dust and waterproof (IP65), but also remarkably light, weighing just 100 g. - Headlamp with rechargeable battery that illuminates your entire field of vision. - ALL DAYLIGHT function with five colour temperatures - With sensor mode to switch the light on and off easily - Stepless dimming function from 10 % to 100 % - Robust and waterproof, IP65 - Low weight of only 100 g - Operating time with max. lumen: 1.5 hours - Mains voltage: charger 110-240 V - Charging cable included

Micro squeegee set 3-piece consists of three different degrees of hardness (white 100° hardness, red 83° hardness and green 72° hardness). Ideal for applying car films, airbrush films, adhesive tapes, etc. You can reach every corner and edge. For all places that you can no longer reach otherwise. - Made of TPEE material, therefore flexible and durable - Magnetic

Item name	Item number	Barcode	Single Price	
Micro squeegee (3-part) flexible for films, adhesive tapes	65391		16,13 EUR/Pkg	X

>> Micro squeegee 7-piece flexible

Professional edge tool ideal for laying car foils, airbrush foils, adhesive tapes, etc. The micro squeegees have three levels of hardness and can help, for example, to pin edges or close films. Help to cope with the extreme and small waves that occur in automotive packaging applications that are difficult to solve with conventional squeegees. The black (hard) squeegee is suitable for applying film to narrow, flat edges. The red (medium) squeegee is designed to apply film seamlessly on tight curves and edges. The blue (softer) squeegee is ideal for applying film in narrow, concave parts of the car. Each squeegee has a different hardness and its own special function.

Item name	Item number	Barcode	Single Price	
Micro squeegee (7 pieces) for foils, adhesive tapes, edges	65392		13,44 EUR/Pkg	X

>> Airbrush aluminium cutting ruler

made of aluminium and with anti-slip backing.

>> Nexa AQ+ Performance Additive P935-1250

The Aquabase® Plus Performance Additive was developed to improve the paint structure of particularly extremely stressed vehicles, such as sports cars, vehicles with low-slung front aprons, wedge-shaped vehicle fronts, off-road vehicles, etc. To offer the best possible properties in terms of long-term resistance. The Performance Additive P935-1250 can optionally be used in the usual Aquabase® Plus painting process and thus offers additional protection for special requirements.

>> Nexa One Visit Converter STD/HD

The OneVisit Converters P950-9000 and P950-9100 enable the fogging agent to be applied into the wet basecoat without intermediate flash-off time when applying Aquabase Plus basecoat. Application is very simple. The basecoat is applied with a full spray coat until it is fully opaque and this is followed by a mist/effect coat into the wet film to achieve an even finish. P935-1451 Aquabase Plus Performance Blender is a newly developed product for the blending process, which is applied as a full and wet spray coat in the run-off area. In combination with the Nexa Autocolor Premium products in the filler and clearcoat area, the Aquabase Plus system offers an outstanding gloss, first-class finish and a long service life. - ST at a humidity of 30% up to a temperature of 25°C - HD at a humidity from 0% to 30% and from a temperature of 15°C

>> Nexa AQ+ P935-1451 Performance Blender

Nexa AQ+ Performance Blender P935-1451 is a water-based, ready-to-spray blender for two-coat painting. This blender is used to optimise the paint application zone for solid colours in the paste area by absorbing the paint mist / overspray. The use of this blender is mainly recommended for these colour ranges with a high proportion of white / grey.

>> Nexa AQ+ P210-9115 Activator for WB Engine Bay Basic

P935-1135 & P210-9115 are components of the water-dilutable Engine-Bay repair process. This system was developed to simplify and speed up the repair of engine compartments and interiors. Engine bay formulations of the P935 series already contain the Engine Bay-Basic mixed paint P935-1135, but it is also possible to convert colours from the Aquabase® Plus P990 series into a matt engine bay colour using the Engine-Bay-Basic mixed paint P935-1135. The engine compartment colour can then be used for the interior and exterior surfaces of the body part. This eliminates the need to apply a NIN filler for the exterior surfaces and saves a complete work step. This significantly simplifies and speeds up the repair process.

Item name	Item number	Barcode	Single Price	
Nexa Activator P210-9115 (0.5 litre container)	50990		92,12 EUR/Stk	N

>> Nexa HS Plus Express Clear Coat P190-6659

P190-6659 is a fast drying, high solids 2K® acrylic clearcoat. It offers a very short process time for all repairs. It can also be used on hard plastics without the addition of elasticiser. We recommend the "one-coat" application, where a light spray coat is applied and then a normal coat is applied without flash-off time. This "one-coat" application saves time and material. The standard 2-coat application with intermediate flash-off time is possible.

Item name	Item number	Barcode	Single Price	
Nexa 2K HS Plus Express Clearcoat P190-6659 (5 litre container)	51063		672,00 EUR/lt.	N

>> Nexa HS Express Plus P190-8000

P190-8000 is a high-solids 2K acrylic clearcoat based on the latest binder technology for application on AQUABASE PLUS. The Express Plus clearcoat achieves drying times of 5 minutes at 60°C object temperature or 20 minutes at 40°C object temperature. With one setting, all object sizes can be realised, from spot repairs to part painting to complete painting. Despite these short drying times, an excellent end result in terms of gloss and topcoat level is achieved. After cooling, the surfaces are immediately ready for assembly and polishing.

Item name	Item number	Barcode	Single Price	
Nexa 2K Express Plus Clearcoat P190-8000 (5 litre container)	58224		683,00 EUR/lt.	N

>> Nexa HS Express Plus P190-8001 HT

P190-8001 is a high-solids 2K acrylic clearcoat based on the latest binder technology for application on AQUABASE PLUS at elevated temperatures and humidity. The Express Plus HT clearcoat achieves drying times of max. 15 min. at 60°C object temperature or 30 min. at 40°C object temperature. All object sizes can be realised with one setting, from spot repair to part painting to complete painting. P190-8001 achieves an excellent final result in terms of gloss and topcoat level. After cooling, the surfaces are immediately ready for assembly and polishing.

>> Nexa 2K Express Plus clearcoat P190-8002 AIRDRY

P190-8002 is a high-solids 2K acrylic clearcoat based on the latest binder technology for application on AQUABASE PLUS. The water-based lacquer does not need to be hardened additionally. The Express Plus clearcoat achieves drying times of 5 min. at 60°C object temperature or 20 min. at 40°C object temperature, as well as efficient air drying of >60min. at 20°C. All object sizes can be realised, from spot repairs and part painting to entire vehicle sides. After cooling, the surfaces are immediately ready for assembly and polishing.

>> Nexa Ceramic clear lacquer P190-6512

P190-6512 is a high-solids, scratch-resistant 2K® acrylic clearcoat. It was specially developed as a repair clearcoat for particularly wash-resistant refinishing. This clearcoat is based on CeramiClear technology and offers a hard and durable surface with excellent gloss. P190-6512 was specially developed for "one-step" application.

Item name	Item number	Barcode	Single Price	
Nexa 2K Ceramic Clearcoat P190-6512 (5 litre container)	48978		737,00 EUR/lt.	N

>> Nexa HS matt clearcoat system P190-106x

The 2K Matt Clearcoat System, consisting of P190-1062 Extra Matt Clearcoat and P190-1063 Silk Matt Clearcoat, was specially developed for the repair of standard matt painted vehicles and add-on parts. The 2K clear coats P190-1062 and P190-1063 can be mixed with each other to achieve the exact gloss level of a matt standard paint finish during the repair. In addition, the 2K matt clearcoat system is ideal for repainting vehicles in a 2-coat process if a uniform matt surface is to be achieved. P190-1062 and P190-1063 can be used on rigid plastics without the addition of elasticiser.

>> Nexa 2K Self Levelling Primer P565-560x

P565-5601/5/7 Self Levelling Primer is a new type of wet-on-wet filler that optimises painting processes. This primer has optimum levelling properties that enable painting results with maximum gloss that can otherwise only be achieved with sanding fillers. In addition, Self Levelling Primer enables the painting of KTL-coated new parts without prior sanding and can be painted over with all Nexa Autocolor topcoat systems within 5 days without intermediate sanding.

Item name	Item number	Barcode	Single Price	
Nexa 2K Self Levelling Primer P565-5601 white (1 lt. container)	52202		107,20 EUR/Stk	N

Nexa 2K Self Levelling Primer P565-5607 black (3 lt. container)	57119		321,63 EUR/Stk	N

>> Nexa Eco-Dry Primer P565-581x

The 2K Eco-Dry fillers P565-5811/-5/-7 are fast-drying, acrylic-based 2K fillers that have been developed to reduce energy costs through fast air drying and optimum sandability, to accelerate filling processes and thus increase the profitability of the paint shop. Thanks to the usual three shades of grey, this filler always provides the right base colour for the subsequent topcoat colour.

Item name	Item number	Barcode	Single Price	
Nexa Eco-Dry Primer SG01 P565-5811 (3 litre container) white	65234		370,56 EUR/lt.	N

Nexa 1K Primer anthracite P565-9087 (0.400 lt. spray)	48074		53,12 EUR/Stk	N

> NEXA 2K PKW UV technology

>> Nexa UV Primer spray can P110-5000

P110-5000 is a transparent one-component high solid primer filler for quick and easy repair of minor damage (spot repair). The UV primer technology, a Nexa Autocolor patent, enables the wet-on-wet application of thick layers with extremely fast drying in 2 minutes using ultraviolet (UV) light. The result is a high quality spot repair with high film thickness and easy sandability. UV Primer can be used with all Nexa Autocolor top coats. The UV Primer allows the repair shop a shorter process time than with conventionally dried primers. Processing the 1K UV primer in the spray can saves the mixing of 2K material and spray gun cleaning. The substrate must be carefully cleaned and sanded with at least P400 or coarser sandpaper.

Item name	Item number	Barcode	Single Price	
Nexa 1K UV-Speed-Primer P110-5000 (300 ml. Spray)	45811		289,80 EUR/Stk	N

Nexa 1K plastic primer P572-2000 (0.400 lt. spray)	39364		75,72 EUR/Stk	N

>> Nexa pre-cleaner for plastics P273-1333

Water-miscible cleaning solution for removing release agents and dirt residues.

Item name	Item number	Barcode	Single Price	
Nexa pre-cleaner for plastics P273-1333 (1 litre container)	39200		67,40 EUR/lt.	N

>> Nexa antistatic cleaner for plastics P273-1050

Antistatic cleaner specially developed for plastic parts to prevent static charging and ensure a dust-free coating.

Item name	Item number	Barcode	Single Price	
Nexa antistatic cleaner for plastics P273-1050 (1 litre container)	39196		54,20 EUR/lt.	N

>> Nexa elasticiser P100-2020

Elastifier P100-2020 gives the 2K acrylic fillers the necessary elasticity on flexible plastic substrates.

Item name	Item number	Barcode	Single Price	
Nexa Elastifier P100-2020 (0.5 litre container)	45196		45,66 EUR/lt.	N

>> Nexa Plastic Additive P852-1670

A product for the Nexa Self Levelling Primer P565-560x. With the addition of P852-1670 Plastic Additive in exchange with the thinner, the Self Levelling Primer can be applied directly without plastic adhesion promoter after cleaning/pre-treatment on bare plastic substrates.

Item name	Item number	Barcode	Single Price	
Nexa Plastic Additive P852-1670 (1 litre container)	58052		118,92 EUR/lt.	N

> NEXA 2K car filler

>> Nexa universal putty beige P551-1052

Universally applicable polyester filler. Unispachtel has excellent adhesion to steel, galvanised steel, aluminium and GRP. Due to its special composition, it is particularly suitable for coating galvanised steel. - including hardener

Item name	Item number	Barcode	Single Price	
Nexa Unispachtel P551-1052 (2 kg. container) beige	39412		106,64 EUR/lt.	N
Nexa Unispachtel P551-1052 (3 kg. container) beige	39411		159,96 EUR/kg.	N
Nexa Unispachtel P551-1052 (10 kg. container) beige	39410		451,20 EUR/kg.	N

>> Nexa fibre putty green P551-1057

551-1057 is a polyester filler reinforced with glass fibres. It has excellent adhesion to steel, aluminium and GRP. Due to its excellent filling power and stability, fibre filler is used to fill particularly deep dents or to bridge through-ground holes in metal or GRP components. To achieve a smooth surface for subsequent painting, it must be recoated with uni, supersoft or aluminium filler. - including hardener

Item name	Item number	Barcode	Single Price	
Nexa fibre filler P551-1057 (1.8 kg. container) green	39409		108,72 EUR/kg.	N

>> Nexa fine filler white P551-1071

Standard filler for steel, aluminium and GRP. - including hardener

Item name	Item number	Barcode	Single Price	
Nexa fine filler P551-1071 (2 kg. container) white	39407		106,64 EUR/lt.	N

>> Nexa aluminium filler silver P551-1058

Standard filler for steel, aluminium and GRP. The aluminium pigmentation gives the filler a particularly closed, fine surface. It is therefore not only suitable as a filler for coarse dents, but also as a fine or spot filler for fine filling work. - including hardener

Item name	Item number	Barcode	Single Price	
Nexa aluminium filler P551-1058 (2 kg. container) grey	39408		108,40 EUR/lt.	N

>> Nexa polyester spray filler P551-7100

High-filling two-component polyester spray filler. - including hardener

Item name	Item number	Barcode	Single Price	
Nexa 2K polyester spray filler P565-7100 (0.95 lt. container) grey	39372		61,00 EUR/lt.	N

>> Nexa hardener paste P275-300

For Nexa polyester putties.

Item name	Item number	Barcode	Single Price	
Nexa hardener paste P275-300 (40 g tube)	39207		18,10 EUR/Stk	N

> Truck TURBO VISION® mixing system

>> Nexa TURBO VISION® mixed colours

The new generation in commercial vehicle coating! Turbo Vision was developed with patented technologies specifically for the coating of commercial transport vehicles. By using Turbo Vision, you can achieve a new level of efficiency and colour stability. See our revolutionary Turbo Vision system for yourself - it's the solution to commercial vehicle coating! Thanks to the extremely high coverage and user-friendliness of our new Turbo Vision system, you will see measurable material savings in addition to increased productivity and shorter process times. The extremely efficient processing method and the lower oven temperature result in significantly lower energy consumption. The container sizes and the ratios of binder to mixing concentrate have been developed in such a way that the reduction in storage and residual quantities has a positive effect - so you achieve significant savings!

>> Nexa TURBO VISION® mixed colours

The new generation in commercial vehicle coating! Turbo Vision was developed with patented technologies specifically for the coating of commercial transport vehicles. By using Turbo Vision, you can achieve a new level of efficiency and colour stability. See our revolutionary Turbo Vision system for yourself - it's the solution to commercial vehicle coating! Thanks to the extremely high coverage and user-friendliness of our new Turbo Vision system, you will see measurable material savings in addition to increased productivity and shorter process times. The extremely efficient processing method and the lower oven temperature result in significantly lower energy consumption. The container sizes and the ratios of binder to mixing concentrate have been developed in such a way that the reduction in storage and residual quantities has a positive effect - so you achieve significant savings!

>> TURBO VISION® P650-1000 High Flow Binder

The Turbo Vision Premium High Flow EHS topcoat was specially developed for coating transport vehicles. Turbo Vision Premium High Flow EHS Topcoat is an easy-to-apply topcoat with very high hiding power, excellent gloss, very good overall performance with high durability and thus meets the requirements of the transport and fleet market. The selection of its additives makes Turbo Vision Premium High Flow topcoat suitable:- for the application of small to large surfaces in a variety of temperature conditions- is variable in terms of drying (from oven drying at 50°C to 40°C or air drying)

Item name	Item number	Barcode	Single Price	
Turbo VISION P650-1000 High Flow Binder (5 litre container)	59896		561,60 EUR/lt.	N
Turbo VISION P650-1000 High Flow Binder (20 litre container)	59897		2.246,40 EUR/lt.	N

>> TURBO VISION® P650-6000 Matt Binder

Turbo Vision Premium Matt Binder has been developed to provide a smooth and matt finish for commercial transport vehicles for both body manufacturers and repairers. Turbo Vision Premium Matt Binder can be mixed with Turbo Vision High Flow EHS Binder to achieve all gloss levels from matt to semi-gloss, maintaining easy sprayability and high hiding power with excellent overall performance with long durability, meeting the highest demands in these segments. The choice of its additives makes Turbo Vision topcoat suitable:- for the application of small to large surfaces in a variety of temperature conditions- is variable in terms of drying (from oven drying at 50°C or air drying)

Item name	Item number	Barcode	Single Price	
Turbo VISION P650-6000 Matt Binder (3.5 litre container)	60162		336,70 EUR/lt.	N

>> TURBO VISION® P650-1010 High Flow Binder

Turbo Vision Premium High Build Topcoat has been specially developed for coating transport vehicles. Turbo Vision Premium High Build Topcoat is an easy-to-apply topcoat with very high hiding power, excellent gloss, very good overall performance with high durability and thus meets the requirements of the transport and fleet market. The choice of additives makes Turbo Vision Premium High Build topcoat suitable: - for the application of small to large surfaces in a variety of temperature conditions - is variable in terms of drying (from oven drying at 50°C to 40°C or air drying) - excellent on different substrate types and details, such as a variety of rivets, weld seams and edged constructions.

Item name	Item number	Barcode	Single Price	
Turbo VISION P650-1010 High Build Binder (5 litre container)	62719		596,00 EUR/lt.	N
Turbo VISION P650-1010 High Build Binder (20 litre container)	62720		3.562,40 EUR/lt.	N

>> TURBO VISION® P650-1020 Premium High Productivity Binder

Turbo Vision Premium High Productivity Topcoat is intended for manufacturers of commercial vehicles. It is an easy-to-spray topcoat that can be applied using high-pressure application methods including air-assisted airless spraying. It is also suitable for electrostatic spray application and use in multi-coat mixing systems. It offers good coverage, high gloss and a general appearance that meets the requirements of the builder and fleet market. Thanks to the binder formulation, the Turbo Vision Premium High Productivity Topcoat covers: - Covers complex parts of vehicles such as rivets, screws, weld seams and edges - Can be used on small to large surfaces - Can be sprayed under different temperature conditions - Provides very high coverage - Provides high sag resistance on overlaps and difficult to recoat areas - Can be adjusted to the optimum viscosity for multiple mixing systems

>> Nexa P565-370x wet-on-wet filler

Wet-on-wet filler, P565-370x, is based on the latest technical developments in primer technology and should be used where the optimisation of repair and construction processes are key requirements. Wet-on-wet filler is suitable for use under Aquabase Plus basecoat (P989) and 2K EHS Turbo Plus topcoat P498 as well as TURBO VISION and offers a productive process that makes sanding unnecessary. This product can be applied directly to KTL and can be coated up to 3 days later without intermediate sanding. Excellent workability combined with the outstanding levelling properties ensure a high quality topcoat finish alongside a superbly optimised repair/coating process.

Item name	Item number	Barcode	Single Price	
Nexa HS wet-on-wet filler P565-3701 (5 lt.) SG01 white	61300		443,00 EUR/lt.	N
Nexa HS wet-on-wet filler P565-3705 (5 lt.) SG05 grey	61302		443,00 EUR/lt.	N

>> Nexa 2K Reaction Primer P565-767

P565-767 is a chromate-free acid primer. It offers good corrosion protection and very good adhesion to many different substrates.

Item name	Item number	Barcode	Single Price	
Nexa 2K reaction primer P565-767 (2.5 litre container)	39388		135,80 EUR/lt.	N

>> Nexa 2K EHS Transparent Sealer P565-755

P565-755 is a transparent 2K acrylic wet-on-wet filler. It is especially recommended as an adhesion promoter on stable old paintwork (e.g. for repainting). The old paintwork only needs to be cleaned and lightly sanded. This considerably shortens the process time. It can also be tinted with EHS Topcoat P498.

Item name	Item number	Barcode	Single Price	
Nexa 2K EHS Transparent Sealer P565-755 (5 litre container)	51565		946,60 EUR/lt.	N

>> Nexa 2K Universal Primer P565-3800 light grey

Universal 2K Primer P565-38xx, is based on the latest technical developments in primer technology, and should be used where the optimisation of repair and construction processes are key requirements. are central requirements. Universal 2K Primer is suitable for use under Aquabase Plus basecoat (P989), 2K EHS Turbo Plus P498 and TURBO VISION topcoat and offers a productive process that eliminates the need for sanding. sanding unnecessary. This product can be applied directly to unsanded cathodic dip coating and can be coated up to 3 days later without intermediate sanding. Excellent processing in combination with the excellent levelling on with the outstanding levelling properties ensure a high-quality top coat in addition to an outstandingly optimised repair/coating process. The strong adhesion and corrosion protection properties of Universal 2K Primer P565-38xx allow direct application on bare metal as long as the high build mode is observed. Substrates must be properly prepared and cleaned or technically tested in accordance with the recommendations of the substrate preparation procedure.

Selemix industrial paint

The perfect paint system for industrial coatings. The Selemix system consists of a number of high-quality, mixed paints and a large selection of binders. These components form a paint system that is customised to the respective requirements. Particular attention is paid to economy and quality. To fulfil VOC legislation and reduce solvent emissions, Selemix also offers a water-based topcoat system for all types of metal surfaces in addition to the traditional solvent-based products.

Selemix 2K UHS acrylic topcoat 7-120 (12 kg container)	46573		631,20 EUR/kg.	N

>> Selemix 2K High build acrylic topcoat 7-130

2K High Build Acrylic Topcoat 7-130, which has been specially developed to provide an excellent finish (gloss and levelling) and good durability. 7-130 contains a thixotropic agent that supports high film thicknesses without losing its high gloss properties. Developed for trailers, agricultural machinery and other industrial equipment, for interior and exterior use. Suitable for conventional, HVLP, airmix, airless and electrostatic application. Good colour and gloss retention. Excellent in combination with epoxy and PUR primers.

>> B-TEC Speedbox-Moonwalk (washing device)

The dosing units must be cleaned regularly by the painter / user of the MoonWalk. This often happens irregularly or not at all in reality. As a result, after a longer use, this can lead to the dosing units of the MoonWalk becoming dirty. This not only to additional contamination on the MoonWalk and the associated cleaning work, but can also have a negative impact on the mixing result in the worst case. To counteract this, the SPEEDBOX-MoonWalk cleaning station is the perfect solution to guarantee thorough cleaning of the dosing units. The cleaning time can be set individually depending on the degree of soiling. The user only has to place the complete dosing unit including the mixed paint container (dosing unit without container also possible) in the device and set the time. Once the time has elapsed, remove the dosing unit, use the enclosed cleaning brush to briefly rework by hand if necessary and wipe dry/blow off. Only the B-TEC cleaner (1 part by volume) mixed with water (2 parts by volume) is authorised for use. Only when using this cleaner and adhering to the mixing ratio with water is a guarantee is given. Required operating pressure: 5 - 6 bar Maximum compressed air required: 21 l/min Size of device: (H x W x D): 870/1060 x 480 x 250 (mm)

Item name	Item number	Barcode	Single Price	
B-TEC Speedbox-Moonwalk (washing device)	65337		1.288,00 EUR/Stk	X
